The weather man's hope for last night and today was effectively spilled here when a gentle patter of rain began at about 8 o'clock last night, dispelling any danger of frosts.

The rain gauge at S. Hill and Son's hardware store at 7 o'clock this morning registered 37 of an inch of rain, making the season's total 3.51 inches. Last year's total at this time was 8 inches.

Today's weather report states that the weather will be clearing tonight and that tomorrow will be fair. The forecast says continued cold weather, with freezing temperature tomorrow morning.

Ranchers throughout the county are welcoming the present rain. Aside from forestalling all danger from frost for the next day or so, the soil has become softened, grain has been helped and cover crops are being given a big boost.

Hills Snow Covered

The foothills east of Santa Ana are covered with a greater blanket of snow than has been known in several years. The white covering extends down to the smaller hills bordering the valley.

The main ridge and the side ridges were covered with snow. A. B. Tiffany, custodian of the County Park in Santiago canyon, said that this morning there was snow within a mile of the county park. He said that the ridge above Blind Canyon was covered. Blind Canyon comes into the Santiago a short distance above the park.

In Santa Ana Canyon

Mrs. Frank True telephoned in from their ranch in the Santa Ana canyon, near Horseshoe bend, that snow could be seen all along the low hills and on the hills above Alta Vista. They had never seen the "beautiful" come down so low.

A half inch of rain came as a welcome guest and although it is very cold, there has been no frost as yet, according to Mrs. True, who stated that her husband had just come in with some fine ripe tomatoes for dinner.

The rain extended from the Tehachas to the San Diego county line, and from the ocean to the San Bernardino mountains.

The city of Pomona was in the center of one of the freakiest storms known in the San Bernardino valley. It started to drizzle there about 8 o'clock. Half an hour later the fall had increased in what might be called a downpour, the paved streets running well filled with water and shortly before midnight it actually snowed in the city. This last freak of nature was a surprise to the oldest inhabitants.

The snow melted almost as fast as it struck the ground.

Cold Snap Forecasted

"The rain has effectively forestalled any danger from the threatened cold snap," said D. Eymann Huff, manager of the Orange County Fruit Exchange, today. "There will be no danger of a freeze if the rain continues throughout today and tonight. Some sections are likely to be affected by the cold, following the present rain, but I think that there will be no danger in Orange county. The rain is coming at a most opportune time. Cover crops are being helped. As we were not shipping any navel oranges at the present time the rain did not affect us. Shipping will begin next week. The Exchange expects to have all the navel crop shipped by the end of the first two weeks in January."

"The rain is doing lots of good," said H. W. Waterman, secretary and manager of the Orange County Vegetable Growers' Association at Villa Park, today. "Vegetable shipping will be delayed for a few days. There will be no picking until the ground becomes dry. However, this delay will only help the market. From all I can hear the vegetable crops in the

SPECIAL REPORT

SAN FRANCISCO, Dec. 30—Forecaster Willson today announced that a strong northerly and north-easterly gale is coming down the coast from Alaska. The gale is due to arrive any time. Storm warn-ings are being displayed. Willson believes that the Southern California rain will save the orange crops. He warned growers to pre-pare for severe cold to-night.

CRUSADE LIKELY SET FORD BACK A MILLION

BY CHARLES P. STEWART
(United Press Staff Correspondent)
STOCKHOLM, Dec. 30.—Henry Ford's attempt to end the war is destined to cost over a million dollars if the proposed Hague conference is prolonged, according to estimates of Man-ager Plattner.

Already \$300,000 has been spent. The managers are considering the matter of giving \$10,000 to the local poor.

Reports of a diplomatic break being imminent between Austria and America caused the peace delegates anxiety.

The party has changed its mind about crossing Germany en route to The Hague.

INDIANA G. O. P. BACKS FORMER VICE PRES. FAIRBANKS FOR 1916

INDIANAPOLIS, Ind., Dec. 30.—In-diana Republicans today entered for-mer Vice-President Fairbanks as a presidential candidate. Edward Mor-row promised Kentucky's support. Many Progressives attended the meeting. Fairbanks briefly urged a constructive policy toward world trade and preparedness for an in-dustrial military invasion. He denounced the Democratic plans to tax pig iron, checks, gasoline and automobiles and urged the nation not to let the war engender racial hatred.

IN CONFERENCE WITH IRVINE ON HARBOR PLANS

Commission's Newly Appoint-ed Engineer Will Start Work In January

The Orange County Board of Har-bor Commissioners is holding a con-ference today with James Irvine, own-er of the Irvine ranch, relative to the investigations of the commission upon the feasibility of establishing a har-bor at Newport Bay.

The Irvine Company owns a large portion of the land around the bay, and contemplation of many of the things that would have to be done in improving the harbor entails the at-titude of the company. For instance, if dirt has to be moved that dirt has to be deposited arised, and with it the question of whether or not the owner will co-operate or object to having it moved to the most convenient place. The right to go upon the land to do certain things is involved. Some eight or ten questions of this nature were discussed freely today, and throughout the commissioners found the attitude of the ranch owner to be entirely in favor of co-operation.

The harbor commission is to meet early in January with Capt. Chas. T. Leeds, who has been appointed en-gineer of the commission. Immediately after that meeting, Capt. Leeds is to commence his work of making a re-port upon the feasibility of making a harbor, upon the estimated cost and upon the details of the plans for a harbor, if he deems a harbor feasible.

PROBE MYSTERY ABSENCE L. A. OFFICER

LOS ANGELES, Dec. 30.—Believed a victim of foul play and for several hours the object of exhaustive search by the flying squadron and a detail of ten police, Patrolman William T. Hafner appeared at his home, 1543 West Eighth street, at 8 o'clock this morning apparently unharmed and de-termined not to discuss his adven-ture.

Hafner, who patrols a beat in Boyle Heights, rang in at 1:45 a. m. and was not heard of by his superiors after that time, although his schedule calls for a report at 2:45 a. m. When he failed to make known his whereabouts he was searched for by nearly a score of policemen under the direction of Lieutenant Johnson. Shortly before his arrival his mother received a tele-phone message telling her her son was safe and would be home at 8 o'clock.

Upon his arrival Hafner refused ab-solutely to discuss the affair. Chief Snively was scheduled to order an in-vestigation today.

Hafner was attacked by gangsters more than a month ago and was se-verely beaten.

URGE MRS. LANSING FOR D. A. R. PRESIDENT

WASHINGTON, Dec. 30.—Mrs. Robert Lansing, wife of the Secretary of State, is frequently mentioned as a possible candidate for president-gen-eral of the D. A. R. when the election is held a year from next April. Mrs. William Cummings Story, New York, the incumbent, is not eligible for an-other term.

PORTO RICO GOVERNOR SAILS

NEW YORK, Dec. 30.—The steam-ship Mongolia, one of the four big cargo carriers purchased from the Pa-cific Mail Steamship Company by the Atlantic Transport Line, has arrived in New York after a voyage from San Francisco around Cape Horn. She will start on her first trip to London January 5.

VARIED EXCUSES GIVEN BY MEN BEING ASKED TO ENLIST

British Recruiting Officer Demonstrates Why Lord Derby's Plan Failed

BY WILBUR S. FORREST
(United Press Staff Correspondent)
LONDON, Dec. 30.—A recruiting of-ficer today demonstrated why Lord Derby's voluntary recruiting plan has failed and why conscription is im-minent.

He escorted me down the street to a near-by recruiting office in the even-ing. Thousands were hurrying home. The officer touched the arm of a sleek clerk, saying:

"Why don't you join the army?"

"I'm married," and disappeared.

Next, two admirable specimens of manhood claimed they were employ-ed in the government's India office and exempt.

Four farmer boys with a girl, who were accosted, left the girl and fled.

Next, four claimed physical unfitness. Another claimed his wife was ill and another alleged he was past forty, the age limit. He did not look it.

One youth feigned a limp.

A six-foot cockney sneered:

"You're askin' me to enlist. I've think twelve shillins' six pence a week is separation allowance enough for my wife? No, none of this army for me."

The officer said the army now is getting the dregs, bums enlisting to get free meals.

He said the middle classes refused to enlist unless they are forced.

SNOW FALLS IN S. F. SUBURBS YESTERDAY

OAKLAND, Cal., Dec. 30.—While the sky above San Francisco and the bay was clear and the sun was shining yesterday afternoon, clouds gathered over Oakland, Alameda and Berkeley and it snowed.

The fall lasted only about fifteen minutes, but the flakes were as white and firm as though they were falling up in the mountains.

The air was so cold that the snow lay on the ground for several min-utes, spotless and gleaming. This is the first time the oldest inhabitants can remember of a real snowfall over all three cities at the same time.

SHIP ADRIATIC VEILED IN MYSTERY STILL

VICTORIA, B. C., Dec. 30.—Al-though a sharp lookout has been kept for the distressed Peruvian bark Cal-iao by the American coast guard cut-ter Snohomish and the lifeboats of the British Columbia life saving sta-tions, the movements of the vessel were still shrouded in mystery up to a late hour today.

FIRE DESTROYS \$150,000 LAKE STEAMER

MUSKOGEE, Mich., Dec. 30.—The steamer Nyack, owned by the Crosby Transportation Company and one of the oldest vessels in the passenger business on the Great Lakes, burned at her dock here today and sank to the bottom. The Nyack, built in Buf-falo in 1878, was valued at \$150,000 and is said to have been fully insured. The origin of the fire has not been learned.

MAKE \$250,000 PROFIT ON UNFINISHED SHIP

SAN FRANCISCO, Dec. 30.—An in-dication of the demand for American bottoms was emphasized today in the announcement that a steamer being built here at the Union Iron Works for Hind, Ralph & Company of this city, and the construction of which barely has started, has been sold to Thomas B. Wilcox of Portland, Ore., for a price said to be \$250,000 in ad-vance of the contract price.

The vessel was contracted for at \$750,000, and is said to have been sold for \$1,000,000.

SACRAMENTO, Dec. 30.—The Los Angeles county clerk today sent to the Secretary of State a telegram, saying he was mailing a supplemental dry petition bearing 19,000 signa-tures. This brings the total for 1918 partial prohibition up to 69,000.

BAY CITY BOY FOR FRANCE

SAN FRANCISCO, Dec. 30.—Fred Allen, a San Francisco boy, today joined the French foreign legion.

THE Countess of Minto is to be the bride of Lord Kitchener, if reports from London are true. He has been a bachelor despite the fact that he might have made a selection from among the most beautiful in England. Lady Minto, who is more than forty years of age, is the widow of Lord Minto, once governor general of Canada and later viceroy of India. She holds the highest position in English society. Below is shown the most recent photograph of General Kitchener, taken after his return to England from the Balkans.

SCHMIDT'S LIFE DEMANDED AT TRIAL CLOSE

LOS ANGELES, Dec. 30.—During his closing arguments in the Schmidt dynamite trial today, Nate Coghlan, for the defense, made a stirring ap-peal for acquittal.

District Attorney Woolwine deman-ded Schmidt's life.

Judge Willis intends to read his in-structions and give the case to the jury at about 6 o'clock p. m.

AMERICAN WOMAN MAY BE VICERINE OF INDIA

NEW YORK, Dec. 30.—The Sun prints the following:

LONDON, Dec. 29.—Lewis V. Har-court, who holds a place in the cabi-net as first commissioner of works, has resigned to become Viceroy of In-dia.

It is understood that Mr. Harcourt is one of the cabinet ministers op-posed to the compulsory enlistment of Britons. His retirement from the cabinet may be due to this.

Mrs. Lewis Vernon Harcourt will be the second American woman to be-come the Vicerine of India.

BRYAN NOT 'REGULAR' ENOUGH 'DRY' TO BE WANTED AS CANDIDATE

CHICAGO, Dec. 30.—If Bryan starts in the 1916 presidential race, it will not be as a driver of the prohibition party's water wagon. The old cart, was greased up for the contest yester-day at a meeting of the Prohibition National Committee in its Chicago headquarters. But when Bryan was mentioned as the possible Jeliu the suggestion was tripped at the thresh-old. Mr. Bryan is not regular enough to suit the national "drys."

"When the Hobson resolution was up in Congress," explained National Chairman Virgil G. Hinshaw of Ore-gon, "Mr. Bryan wired the southern representative to oppose it, insisting that prohibition was a state and not a national question. Later, when it be-came apparent that a wave of dry-ness was sweeping across the coun-try, Mr. Bryan turned completely around."

PARIS, Dec. 30.—It is today official-ly announced that the allies sank two Austrian destroyers during a naval battle in the Adriatic. The allies' fleet intercepted the Austrians steam-ing to bombard Durazzo, Albania. The destroyer Littia hit a mine and sank. The destroyer Triglav was shelled and sunk. The remainder of the Aus-trian fleet fled toward Cattaro.

SLAVS CONCENTRATE IN SOUTHEAST GALICIA

BERLIN, Dec. 30.—The Russians are heavily concentrating in South-eastern Galicia, along the Bukovina frontier, it is today reported. The Aus-trians are maintaining their Czerno-witz positions despite repeated at-tacks.

The Russian offensive is spreading along the Dneister.

Hundreds of thousands of Slavs are concentrating at Tarnopol.

The weather is most bitter, snow hampering the operations.

ALBANIANS JOIN IN ATTACK ON SERBS

BY HENRY WOOD
(United Press Staff Correspondent)

Prince William of Weid, the former Albanian ruler, has organized tribes west of Prizrend, it became known today. The tribes are vigorously at-tacking the Serbs east of Scutari. The Prince intends to annihilate the Ser-bians in Northern Albania. The Bul-garians are co-operating. The Prince hopes to gain the consent of the Ger-manic allies to re-occupy the Albanian throne.

HULL IN QUANDARY

HULL, Eng.—City authorities are in a quandary. The telephone sys-tem, which is a municipal affair, has lost all its male employees to the war. Headed by a band, seventy inspectors, linemen, construction men, clerks and others, marched to the central re-cruiting station and enrolled en masse. The solution of the problem will be mostly women.

PROTECTIVE BODY IS FORMED BY FILM MAKERS

LOS ANGELES, Dec. 30.—An important move was made last night by the film manufacturers of Los Angeles and Southern California for the protection of their interests. Representatives of every motion picture concern in this district attended a private meeting hurriedly called in the Hotel Alexandria, and after several hours of discussion and announcement was made that the preliminary steps toward the organization of a protective association had been taken.

Jesse L. Lasky, designated to make the announcement, said:

"We will have an organization similar to a board of trade or a Mer-

chants and Manufacturers' Association to protect our interests at all times.

"Film manufacturers in and about Los Angeles spend \$35,000,000 annually. The industry is the largest and naturally one of the most important Southern California has. We are therefore banding together for our mutual betterment and protection."

The utmost secrecy attended the meeting and it could not be learned what prompted its calling. Mr. Lasky denied that the attacks made by Dr. Sealeman on the immorality he says exists in motion picture camps had anything to do with it or that the situation Dr. Sealeman has raised was even discussed.

A committee was appointed to draft by-laws for the protective association. The following were named on it: H. O. Davis, Frank Garbutt, David Horsley, Thomas H. Ince, Jesse L. Lasky and Frank E. Woods.

Among the prominent motion picture producers present were David W. Griffith, Thomas Persons, John Blackwood, Arthur Wright, A. J. Barry, Mack Sennett, G. W. Stout, Winfield Sheehan, E. D. Horkheimer, G. E. Kahn, Henry Lehman and G. C. Parsons.

LOUIS PETERSEN WRITES A BOOK

Louis Petersen, the wellknown horse-shoer and horse-lover, has just published a booklet entitled "Statement of Fact and Scientific Truth."

In his foreword Mr. Petersen says of the book: "It is written with the object to prevent lame horses, divorces and wars." It seems fair to assume that the author names the evils he hopes to prevent in the order of their importance, from his point of view.

The little book is written in a kindly spirit, and contains some whole, some thoughts to young and old, and some advice on the care of the horse's feet that is both common-sense and scientific. It discusses the great European war from a pro-German point of view.

The book is for sale at \$1.50 per copy at Mr. Petersen's place of business, 409 Spurgeon street.

FLAYS GERMANY, BRITAIN IN ADDRESS

WASHINGTON, Dec. 30.—Germany and Great Britain, under the plea of military necessity, have violated virtually every law which stood in their way, declared Dr. Theodore S. Woolsey, former professor of international law at Yale, in a stirring address before the Pan-American Scientific Congress yesterday.

The address was the most severe indictment of these two powers yet made during the congress. He declared: "Unless some means is found to punish these violators of international codes, then nations may well despair of any hope of international justice and wars must always lapse into the barbarities of savagery."

"Two years ago I could without fear of contradiction have asserted that international law had advanced mightily since the Napoleonic era in two particulars—the humanization of war and the rights of neutrals. Neutral rights are no longer regarded.

"The world is full of plotting and espionage, of explosions and arson, of duplicity and treachery, of suffering and death, and civilization which means the reign of law, sinks below the bloody horizon. A law unenforced does not survive. But when penalty follows violation of the law, no matter how often the law is broken, it is triumphant. So it is with the law of nations."

Dr. Woolsey proposed the establishment of a tribunal of neutral powers to sit in judgment upon the belligerents, with power to decree punishment of the offending power for any violation of international law.

Violated Every Law
"Today after seventeen months of war in Europe, I am forced to admit that both Germany and Great Britain have violated every rule of international law that has stood in their way. The rights of neutrals are ignored. We have seen defenseless towns bombed, non-combatants killed, murders committed by submarine attack."

"If there is to be no penalty, then international law has broken down and the future holds but little hope. There are two courses of punishment, retaliation or penalty. Retaliation is illogical, for with it the man higher up cannot be made to suffer. If Great Britain had hanged the son of Admiral von Tirpitz it would have been one way, but an illogical way of avenging a method of submarine attack without warning on unarmed merchant marine ships, which all of us agree is murder."

Broaden Arbitration
Walter Scott Penfield, formerly of the State Department, addressed the congress on arbitration. After giving the history of arbitration settlements that American countries have been parties to, he urged the following:

The broadening of arbitration treaties. The adoption of a code of public and private international law.

The creation of a Pan-American court of arbitration to be located at the city of Panama.

John Barrett, secretary general of the congress, today issued a statement on the results of the congress to date. He said the dominant note that has been struck so far is one of sympathy and unity of thought. He emphasized the social side of the congress as having great influence in bringing the United States and the southern countries closer together. He said there are assembled in Washington today more foreign officials accredited delegates than have ever attended any international congress in the national capital.

Canal Theory Flayed
Taking a fling at Professor Lowell's Martian canal theory, Dr. John A. Brashers, a Pittsburg astronomer, today declared that if any planet was inhabited, it was Venus and not Mars. Holding that the rarity of the atmosphere made Mars uninhabitable, Mr. Brashers said the atmosphere of Venus was as dense now as that of the earth in prehistoric times when life in all forms was richest. He added:

"If it is true that the so-called canals of Mars are 275,000 miles long, they must be ten miles wide and twelve deep. Since our little ditch at Panama cost some \$325,000,000, what a bank account those Martians must have, according to the theory."

Dr. Luis Lopez de Mesa, of Colombia, in an entertaining paper on the alcohol problem urged the use of the "movies" as an important agent in suppressing the liquor habit.

RIVERSIDE OUTLINES
ROMANTIC DISPLAY
Famous Indian Village Will Be Feature of City at 1916 Orange Show

SAN BERNARDINO, Dec. 30.—The city of Riverside, the pioneer citrus fruit district of California and one of the greatest producing regions in the world, has arranged a great exhibit with a romantic atmosphere for the Sixth National Orange Show, February 17-24, it is announced by the Orange Show directors today.

As the big feature of the display Riverside will use the main portions of the big Indian village that was one of the Santa Fe railroad exhibits at the San Francisco exposition. The Santa Fe has presented the exhibit to the city of Riverside.

Frank Miller, whose artistic hand moulded the world-famous Mission Inn and its romantic atmosphere, will direct the building of Riverside's part in the National Orange Show.

Indian maidens from the government school at Riverside will serve orange juice and other refreshments of the citrus fruit variety at the Riverside exhibit.

Mr. Miller will be of invaluable aid in arranging a display that will tell the story of the early days of the orange. Hundreds of thousands of the choicest oranges and lemons will be used in building the display. Riverside will seek the world honors for quality of oranges and lemons at the Orange Show.

SEARCH L. A. FOR
ALLEGED CROOK
DRUG USER

LOS ANGELES, Dec. 30.—Jack Hobbs, known to Los Angeles police as a burglar, sneak thief and drug user, escaped from the psychopathic ward of the county hospital early today by leaping from a dining-room window to the ground, ten feet below.

Hobbs was wearing the ward's khaki uniform, consisting of a loose-fitting jacket and trousers.

According to the police Hobbs was arrested in Indiana in 1908 and sent to a reformatory for burglary. He was paroled. He violated his parole and went to San Francisco, where he was arrested on a felony charge and sentenced to San Quentin for two years.

Paroled after serving a year, Hobbs came to Los Angeles, and, according to police, engaged in many burglaries here. He was arrested by the late Detective Sergeant Browning on a charge of burglary, which was reduced to petty larceny owing to the disappearance of witnesses.

While in the county jail Hobbs' health became so poor—he said it was due to the lack of drugs to which he was accustomed—that he was taken to the psychopathic ward of the county hospital.

Both the police department and the sheriff's office have detailed men to look for Hobbs.

NEW BUILDING BRICK, FIRST, MAIN STREETS

Old Landmark Is to Give Way To the Inroads of Modern Improvement

A new one-story brick building is to be constructed at the northeast corner of First and Main streets. The building is to be put up by Col. S. H. Finley for a man who has already signed a lease for the property. The building will be 25 by 90 feet. The house on the lot was built by Col. Finley in 1893 and was occupied by him until a few years ago when he built his residence on East First street. The old house is to be sold and moved away as soon as a purchaser for it is found, and construction will commence immediately after the lot is cleared.

URGENT FAIRBANKS AS CANDIDATE FOR G. O. P.

INDIANAPOLIS, Dec. 30.—Action looking toward placing the name of former Vice President Charles W. Fairbanks before the country as a candidate for the Republican nomination for president, it was thought yesterday, probably would be taken today at the party love feast, according to many Republicans who had gathered here last night. It was estimated that more than 5000 already had signed a petition to place Fairbanks' name on the ballot in the Indiana primary next March.

DELEGATES IN JOINT SESSION

WASHINGTON, Dec. 30.—City Planning was to be discussed at a joint session of the American Civic Association and the Pan-American Scientific Congress this morning, Surgeon General William C. Braisted, U. S. N., presiding.

Speeches were to be made by Frederick Law Olmsted, Brooklyn, Mass.; John Nolen, Cambridge, Mass.; Dr. J. N. Hurty, Board of Health, Indianapolis; J. Horace McFarland, president of the American Civic Association, Harrisburg, Pa.; and Richard R. Watrous, secretary, Washington.

This afternoon's session is to be devoted to Better Industrial Housing. The speakers, Perry R. MacNellie, New York; Lawrence Veiller, secretary National Housing Association; Dr. Caroline Hedger, National Americanization committee, and Edwin W. Fiske, mayor of Mt. Vernon, N. Y. Replies and discussions were to follow.

THE BEST PROOF

Given By a Santa Ana Citizen

Dean's Kidney Pills were used—they brought benefit.

The story was told to Santa Ana residents.

Time has strengthened the evidence.

Has proven the result lasting.

The testimony is home testimony—The proof convincing.

It can be investigated by Santa Ana residents.

F. L. Sexton, retired farmer, 1129 West Second street, Santa Ana, says:

"Off and on I was troubled by a dull pain in the small of my back. I thought the complaint was due to disordered kidneys. When I saw Dean's Kidney Pills recommended, I tried them. I soon got relief. Another of my family has also had splendid results from Dean's Kidney Pills."

Over three years later Mr. Sexton said: "If I should ever again have need of a kidney medicine, I would take Dean's Kidney Pills. They cured me several years ago and I have had no occasion to use them since, though I am past 88 years old."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mr. Sexton has twice public recommended.—Advertisement.

The Roof that lasts for Ages

That is what is said about this ready roofing by those who use it, because it is practically indestructible. It makes any building immune against every enemy that can attack a roof.

J-M ASBESTOS ROOFING is a combination of the famous Asbestos (rock) fiber and the great weatherproof, Trinidad Lake Asphalt. Fire, time or weather cannot affect it.

It will stand for any length of time fire tests that would destroy in a few minutes any of the so-called fire resisting roofings.

J-M Asbestos Roofing never requires painting, graving or repairing.

It saves money and worry from the day it is laid.

HAS PRAISE FOR COMPANY L OF SANTA ANA

Adjutant Gen. C. W. Thomas
Pays Unofficial Visit to
Capt. J. L. McBride

"So far as I could observe in an unofficial visit, Company L is in good condition and in good hands," declared Brigadier General C. W. Thomas, adjutant general of California, yesterday afternoon after looking over the Santa Ana Armory in company with Capt. J. L. McBride.

General Thomas and his wife came down from Los Angeles, where the adjutant general has spent a week paying informal visits to National Guard officers, for a visit with Mr. and Mrs. T. E. Stephenson. Thomas and Stephenson were room-mates at Stanford University. While here General Thomas called upon Assemblyman J. C. Burke, with whom he became acquainted at Sacramento.

"My visit at the Armory today was merely casual," said he. "Whenever I can, I make it a policy to visit the company officers so that we can get in closer touch with each other. Too often company officers have things on their chests that they want to get off. I know because I worked up through the company from the ranks. I am making it a policy to make myself acquainted with inside problems of the various companies."

"I was highly pleased with the way things are kept at the Santa Ana Armory, which is a splendid building. The property room is well arranged and in apple-pie order. That alone shows system and care in the details of the company's work."

The property room was in charge of Quartermaster Sergeant Christenson. General Thomas was careful to point out that his visit was in no way an inspection.

"I will be back for regular inspection in February or March," said he, "at which time the usual inspection procedure will be followed."

General Thomas and his wife will leave San Pedro for San Diego on the torpedo boat Farragut tomorrow. After a brief visit in San Diego they will return to Sacramento.

PARSONS STORE AT TALBERT IS ROBBED OF PRIZE REVOLVER

Some burglar wanted a revolver last night. He took the trouble and the chance to cut the lock off the rear door of Parsons & Parsons' store at Talbert, pried around the store in the dark, and steal an automatic revolver. The gun was one of several prizes that go with a punch board in the store. It is possible that somebody thought he had punched enough times to pay for a revolver, and concluded to get it by theft even if he could not get it by chance. There were several other prizes in the same place with the automatic, but the visitor passed up everything but the automatic.

Serenaders Sing Christmas
Carols at Homes of Sick
and Shut-ins

GARDEN GROVE, Dec. 30.—A serenading party consisting of members of the Epworth League visited the homes of the sick and shut-ins Wednesday night. After singing hymns and Christmas carols they presented these people with home-made candy.

Thursday night the M. E. Sunday School had a Christmas tree and program. At the close of the program the different classes brought gifts to be given to the needy.

Mr. Steele made a model in wood of the Boys' Spanish Home at Gardena and lighted it by electricity and the members of the primary room and Prof. Fitz's Bible class, dropped their contribution down the chimney, which amounted to over \$15, for that purpose.

Eight other classes gave canned fruit, flour, beans, rice, apples, potatoes, home-made candy and a quilt. These contributions were distributed Friday to the needy in this vicinity and to the Deaconess Home in Los Angeles.

The Baptist Sunday School had a Christmas tree and a splendid program Friday evening. Candy was distributed to all the children and an apple was given to every one present.

There was a Christmas tree and program at the Japanese Mission Saturday night. The program was furnished by the Baptist Sunday School. Mildred Nakamura spoke in behalf of the Japanese, expressing in her talk the appreciation of the Japanese for the interest taken in them by the American people.

During the evening gifts, candy and fruit were distributed.

Ray Christensen's brother and his wife, Mr. and Mrs. George Christensen, and Mr. and Mrs. C. S. Cousins and son, Bruce, of Redlands, spent Christmas with Mr. and Mrs. Ray Christensen. Mrs. Cousins is a sister of Mrs. Christensen.

Ten of the young people from the B. Y. P. U., with their pastor, Rev. Thomas, had a service at the county farm Sunday afternoon.

Mr. and Mrs. Thomas Jessup entertained at a 1 o'clock family dinner Saturday.

Covers were laid for Mr. and Mrs. A. M. Trickey and family, Myron Trickey of Santa Ana, Mr. and Mrs. H. E. Jessup and family of Irvine and Mrs. W. H. Johnson, Mr. and Mrs. Thomas Jessup and family. After

Rowley Drug Company Guarantees to
Return the Money if Mi-o-na
Does Not Relieve You

"It's a pleasure to sell a medicine when our customers come in a medicine and tell us how much good it has done them," said the Rowley Drug Company, the popular druggists, to a Santa Ana man, "and that is why we like to sell and recommend Mi-o-na, the dyspepsia remedy. The distribution of samples that we made created so much talk and so large a proportion of those who received a sample have bought a box of Mi-o-na that our clerks have been busy selling the medicine ever since. We have so much faith in this article that we are going to guarantee it in the future, and will return the money to any purchaser of Mi-o-na whom it does not help. That may seem rash but our customers have said so many good words in its favor that we do not expect to have many packages returned. "Anyone who has dyspepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can leave 50 cents deposit at our store and take home a box of Mi-o-na and if the remedy does not regulate his digestion and help his dyspepsia he can withdraw his money. We don't know but what we would be willing to pay him interest."

This shows great faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid increase of sales since we introduced it in Santa Ana shows that it does all that it is claimed to do—relieves dyspepsia, regulates digestion and enables those who use it to eat just what they want with no fear of trouble after—Advertisement.

You'll Be Free

from the worries, expenses and litigation incidental to irrigation if you buy land in the Templeton-Paso Robles District.

Think of the advantages to be had in growing fruits and nuts under California conditions without irrigation; no installation or maintenance expense of a water system, no costly irrigating, all of which means a lower cost of production, finer flavored fruit with better keeping and shipping quality.

This locality has been producing a very superior quality of Apples, Pears, Prunes, Cherries, Grapes, Almonds and Walnuts for years without irrigation; but only in the last few years has any particular attention been given to the development of the fruit and nut industry. There are many reasons why this locality is coming to the front so rapidly, why it will in the near future be one of the richest, most famous districts in this state.

If you are a prospective land buyer you are not doing yourself justice unless you give the Templeton-Paso Robles District very serious consideration. Many comfortable little fortunes will be made there in the next few years—get into the game now, it's a pleasant place to reside, fine climate, beautiful surroundings, good social and market conditions. CONGRESS DALLIES

There are signs that the members of Congress are going to devote this session principally to maintaining their district fences, rather than being interested in the fortunes of the Grand Old Democratic Party. The President's program has been admired by his party forces, but they are letting it go at admiration. Support has not shown, as yet. Each member of the party who plans at all to return to Congress at the election of 1916 is trimming his sails to the special wind of his district.

Once more the fortunes of the United States, as well as of an administration may be endangered by the pursuing of four hundred or more local policies. It appears that the administration has marked out three questions as of vital importance—national preparedness, conservation, and rural credits. All of these are of vital interest to us as a nation. They can all be wrecked in the House of Representatives by the process of local logrolling. The question of preparedness is the most spectacular. It is the one which will arouse the most factional feeling within each party. Some may think that its importance has been exaggerated. But at least it has been made a national issue by the President and should be frankly and candidly passed upon one way or another by Congress. Delay should be ruinous to those members of Congress who tolerate it. Rural credits and conservation, while not so spectacular, are almost of equal importance for the future welfare of the country. Our farming interests need at this time a more stable financial basis. Our forests, water, fuel and power resources need the steady hand of a permanent federal policy which will look both to the interests of the public and of the people who are to develop these resources. The public is keenly interested in seeing the committees of Congress go at their work in a businesslike and expeditious way. —Fresno Republican.

TEA TABLE TALKS

by MAX DEWITT TALMAGE.

A Married Man's Margin

Slowly the long haired man was drawing forth heart rending strains from his cello. The rest of the music was mere bagatelle to those soulful notes that were getting into every one's blood, to the time of a slow waltz.

At a nearby table sat a professional dancer, her immobile face was like a mask that covered any emotion that might be passing behind it. It was only in her dark eyes that one found cynicism, avarice or ennui, fanned or dimmed by the callow youths who claimed the honor of a dance, or the wealthy man who with low insinuating voice sat a moment beside her.

The yellow lacquered walls, the silk shaded lamps, the groups of women in velvet and fur who sat at the tables around the open space reserved for dancing made a picture of the very latest things in the way of decoration, dress, rouge and liquid powder.

They sat, a group of three; two men and a woman. She, you could see from the cut of her gown, the alertness of her manner, a general air of savoir faire, of being a part of the scene, was a New York woman. They from their interest in everything, as if it was all a show, and they looked on, proclaimed themselves from a far country.

"What is a married man's margin?" she asked.

"I never knew a married man had any margin," said he who a few minutes before had been showing with a great deal of pride the picture of his little two-year-old girl. "Why it is not until a man is married that he begins to live. Margins?—Why it is only then that the bars are down and the world is before him. He may have to take a hurdle or two, but that makes it all the more exciting—like a wild ride over the prairies, when you give your horse his head, and you have no responsibility, and you don't care a hang in what direction you go, for

your lungs are filled with fresh air, and your blood is on fire."

"Rather hard on the woman you happen to be married to," she retorted.

"Oh, no, she likes you all the better when you come back. You see, an unmarried man is more or less handicapped. There are so many women and girls who are trying to throw the matrimonial halter around his neck, he really never can let himself go as he would like to. If he feels like making love to some one, it matters not who, perhaps it is only the spring in his blood, perhaps he feels like taking the bit in his teeth and bolting, there is always the stile of a breach of promise staring him in the face. He might get over the top bar, but there is always the risk that it will throw him."

"Then, too, friends and family are always expecting a man to get married. That fact spoils every woman he meets, because he puts the matrimonial test on them all, and there are a lot of women a man might like, but would never care to marry. If, however, a man shows unusual attention to a woman, congratulations are sure to follow, or he is considered a 'cad' because he goes no further."

"The only time a man has no margin is when he is married. If a woman accepts his attentions it is at her own risk, not his. She knows where he stands; he can make love to her, send candy, flowers, what he will. There is no matrimonial string attached to it."

"Come along. Don't let us miss this wonderful fox trot. What's the use, wasting our time talking about a married man's margin. There is no such thing."

THE CLOUD OF PARTISANSHIP

From the Hemet News (Dem.)

Reading the comments on the president's message is very interesting this time. What makes it so much more interesting than usual is the fact that a presidential campaign is a year nearer than it was the last time.

The effect left by reading the comments now is a clearly defined picture of the customary eclipse of clear thinking by partisanship.

Excluding the independent journals, the comments on this message are in sharp contrast with those of earlier dates, when no presidential campaign impended.

Democratic papers are obviously determined to see no error in the message. Republican papers are as obviously determined to see no truth. The lack of constructive criticism in the Democratic partisan comment is about as unhelpful as the studied, childish, carping criticism of the Republican partisan comment.

What the president has to offer for the good of the nation is tested, not by the yardstick of truth and patriotism, but by the yardstick of partisanship.

What brings this about is a change in partisan minds. To partisan minds Woodrow Wilson is no longer merely president of the United States, striving earnestly to find and follow the right and just pathway toward the national destiny. He is now, to partisan minds, the prospective Democratic candidate for president—the man the Republicans must defeat if they would win and get their men in office.

Lately we have been troubled by the hypochondriacal dilution of patriotism along racial lines. From now till next November we shall be plagued by a new hypochondriacal dilution—the nation will divide into Republican-Americans and Democrat-Americans.

What a pity! Never did it seem so great a pity as it does today, when the issues before the country are so large and so important, when there is so much need of every ounce of single-minded patriotism the nation can muster. Yet it is the way things happen under party government, and party government is in vogue—nothing better has been offered. Yet—what a pity!

1915 REVIEW OF THE WAR

By ED. L. KEEN, United Press Staff Correspondent

LONDON, Dec. 30.—If John Bull could see himself as others see him he might mend his ways. But being constitutionally unable to apply the reverse English to his eyesight he gives his friends, neighbors and enemies an erroneous notion of his disposition.

Americans recently arrived in England have been astonished to find that this country is not in a state of utter despondency and demoralization. The visitor soon becomes convinced that the stories he has heard and read of internal turmoil, dissension and lack of interest in the successful prosecution of the war have been chiefly made in Germany. He quickly learns that although there has been much grumbling about the management of the war the last year, a certain amount of industrial unrest and a negligible pro-peace sentiment, the great mass of Britishers is more determined today than when the war started, to defeat Germany thoroughly.

John has himself to blame for the unfavorable opinion of him that apparently has been growing in the neutral world in the last few months. "What's the matter with England, anyhow?" constantly comes the query from his friends in America. Kipling says it's a "certain God-given lack of imagination which saves us from being over-concerned at the effect of our appearances on others." Others call it modesty; others, stupidity.

The worst failure of the year—the loss of Bulgaria to the allied cause—might have been prevented by a proper amount of judicious self-advertising applied at the right time where it would have done the most good. But John's cidity couldn't abide the press-agent methods as skillfully employed by Kaiser Wilhelm. Bulgaria frankly put herself up for the highest bidder and the safest guarantee. Germany having a field in the advertising line with no effective counter-measures on the part of the Allies, the British naturally concluded that the Central Powers were the most likely to be able to deliver the goods. It pays to advertise, not only for recruits but for possible allies.

The Englishman's fondness for grumbling, which he simply can't curb even in war time is another token of his indifference to outside opinion. It is the inalienable privilege of the British soldier to carry a grouse against his officers, as it is the right of the British civilian to denounce the government. But this characteristic doesn't detract one whit from the bravery of the one or the loyalty of the other. It would be a great mistake to regard the recent hot debates in Parliament, the outspoken and at

times bitter criticisms of military mis-calculations and diplomatic blunders, as evidences of mutiny or even weariness of the struggle.

True, the Englishman has found plenty in the last year to which to apply his traditional prerogative. From the grumbler's point of view it has been a dismal chapter. The Dardanelles disaster, the Gallipoli fiasco, the failure of the Big Push, on the western front in the spring and fall, the German occupation of Poland, the obliteration of Serbia and the British retreat in Mesopotamia, against which the accession of Italy to the allied cause and her recent brilliant operations on the Isonzo front, the British conquest of German Southwest Africa, the putting out of business of some sixty German submarines in the North Sea and adjacent waters, and the successful invasion of the Baltic by British submarines, make a comparatively meagre offset, in the grumbler's opinion.

After all, Great Britain really owes a great deal to the Whimperers, as Premier Asquith in a moment of petulance recently labeled them. If it hadn't been for these whimperers the country and the war would still be managed by the old one-party cabinet. It was the grumblers who exposed the lack of high explosives and by persistent denunciation of those responsible brought about the creation of the Ministry of Munitions. It is these pestiferous naggers who are to be credited with the scotching of the German spy system in England through the wholesale internment of enemy aliens, the reduction of Germany's high-explosive resources by making cotton absolute contraband, and the partial reformation of the censorship whereby at times the veil of secrecy has been lifted from the battlefield.

In fact, the experience of the last year generally has shown the croakers to have been more useful patriots than the cloaksters, although in some instances their energies uncouthly have given a certain amount of aid and comfort to the enemy.

On the threshold of the new year, Britishers are extracting considerable satisfaction from the old Napoleonic maxim: "Wars are won, not by the occupation of territory, but by the smashing of armies." With the exception of the one in Serbia, the armies of the Allies are intact. On the western front Germany has not gained a foot in the last year; on the eastern front she has acquired considerable geography, but she hasn't smashed the Russian army. Meantime she has extended her lines to the Balkans, west and east. Military experts esti-

mate that she has been losing men, killed and seriously wounded, at the rate of 200,000 a month, and they figure that even with the boys of the classes maturing in 1916 and 1917, the only human resources she has yet to draw upon, she will be unable to stand the strain much longer than another year. England and Russia alone, in the meantime, will be able to put nearly 10,000,000 additional men in the field.

In the matter of munitions the Allies at last have the ascendancy. Thanks to the marvelous work of Lloyd George in organizing the war industries of the country, and the effective co-operation of Japan, not to mention the vast and steady stream of supplies from America, the Allies now are prepared to throw two shells to the enemy's one, and the proportion is gradually increasing.

As for money, Germany is manifestly approaching the end of her tether, whereas the resources of the British Empire, the real reserves of the Allies, have barely been tapped.

So, if the winning of this war is to depend upon men, munitions and money, Great Britain and her allies feel that they have small reason to view the outlook pessimistically.

AMUSEMENTS

Plays may come and plays may go but it seems as if "The Bird of Paradise" will go on forever. This charming story of the Hawaiian Islands, by Richard Walton Tully, was seen in this city last season, and made a very favorable impression. It will return to the Grand Opera House, for one night Tuesday Jan. 4th.

The story of the play deals with the lives of two men and two women, one a little dark skinned maiden, a princess of the Islands, who meets an American, they fall in love and finally marry. She soon learns that the intermingling of the brown and the white skinned race is not lasting. The husband and she returns to her people and gives herself as a human sacrifice to save them from destruction. The other girl, an American, meets a beach comber, a man who has sunk as low as a man can sink through liquor, but she lifts him up through her pure influence and he takes his place among men again. Throughout the entire play Mr. Tully has interspersed a bit of human, both American and native.

Oliver Morosco, the well known California producer, is the sponsor for the play and he will this year introduce a new Luana, Miss Carlotta Monterey, a young California actress, who bids fair to become as famous as those who have preceded her. The rest of the cast is in keeping with the usual high standard of the Morosco attractions. The same band of native Hawaiian singers will be heard in their native songs and music. One of the big scenes of the play is the closing act showing Mt. Kilanea's dreaded volcano in violent eruption.

"MADAME BUTTERFLY" SHOWS
MARY PICKFORD AT BEST

A special New Year's program is now being offered at the West End Theater with Mary Pickford in John Luther Long's immortal classic, "Madame Butterfly." This production gives "America's Little Sweetheart" an entirely new role to portray and is without question one of Miss Pickford's greatest interpretations.

The most beautiful Japanese gardens in the United States were secured for the staging of "Madame Butterfly." For a real treat many local players will spend their New Year's at the West End Theater. Mary Pickford will be shown in "Madame Butterfly" tonight, tomorrow and Saturday.

Attractive Lobby

Manager Schlesinger of the West End Theater has arranged one of the prettiest lobby displays ever seen in Santa Ana.

Cherry blossoms and Japanese lanterns, together with pink ribbon give the West End Theater a truly Japanese air which harmonizes very appropriately for the occasion with the presentation of Mary Pickford in "Madame Butterfly."

STRONG AND WELL AS EVER

Fred Smith, 325 Main St., Green Bay, Wis., says: "I suffered a long time with a very weak back. Foley Kidney Pills completely relieved me of all soreness and pain and I now am strong and well as ever." Winter aggravates symptoms of kidney trouble; cold weather makes aching joints, sore muscles, and irregular bladder action more unbearable. Foley Kidney Pills help the kidneys eliminate pain-causing poisons. —Foley Drug Company—Advertisement.

CHOIR ENTERTAINED

Lusk Home at El Modena Is Scene of Delightful Meeting Singers, Music Committee

The hospitable home of Mr. and Mrs. Percy K. Lusk at El Modena was the scene of a delightful gathering on Tuesday evening, when Mr. and Mrs. Lusk were hosts to the choir and music committee of the First Baptist church. Holly and palm leaves made effective decorations.

The first part of the evening was passed in a rehearsal of "The Holy City," which the choir gave last night. During this time the other guests gathered about the cheery fire in the grate and enjoyed a Christmas tree, each one receiving a gift, some of them "musical" instruments, which were greatly appreciated by the musicians.

Refreshments of delicious coffee, chocolate, home-made cookies and candy were enjoyed, while Victrola records added to the pleasure of the occasion.

The guest list included Mrs. Leslie Pearson, the Misses Lee, Cassie Pearson, Mame Havens, Hester Billingsley, Blanche Minter, Cobb, Mrs. Frank Harris, I. W. Van Cleave, Merle Ramsey, Charles Williams, Leslie Pearson, members of the choir, and Maurice Phillips, Mr. and Mrs. J. S. Runyan, Mrs. I. W. Van Cleave, Mr. and Mrs. Warren Brakeman, Mr. and Mrs. J. Wiley Harris, Miss Lula Minter, Mr. and Mrs. J. A. Benjamin and Mrs. Stuart Slintham.

Returns From Trip
Mrs. W. L. Tubbs, who has been spending three months in the east, returned home yesterday, accompanied by Mrs. W. E. Van Ausdale. Mrs. Tubbs visited at Hastings, Iowa, and other points in that state. She spent Thanksgiving in Iowa, Christmas with her sister in Colorado and is at home for New Year's. She returns in excellent health.

Entertained Friends
Mr. and Mrs. Jasper Leck entertained Mr. and Mrs. G. W. Amos and family of Hemet Tuesday evening. The time was enjoyed by all with music, singing and games.
The house was artistically decorated with holly and greenery. Delicious refreshments were served.
Other guests present were Dr. and Mrs. Harry Zaiser, Miss Zena Leck, Miss Thelma Nordstrom and Miss Lois Morgan.

PROGRESSIVE WHIST

Mrs. Baumgartner and Mrs. Stephenson Hostesses To Large Company Friends

Mrs. John P. Baumgartner and Mrs. Terry Stephenson were joint hostesses yesterday afternoon at the beautiful home of Mrs. Baumgartner on North Main street, where they entertained a large company of their friends with a progressive whist party.

The Christmas season furnished the motif for the decorations, which were particularly attractive. Graceful asparagus fern trailed over doorways and along the balustrade and hung in festoons from the beamed ceiling of the hall and living room, where brilliant red poinsettias furnished the color note. The library was gay with Christmas holly, and red carnations and ferns were used in the dining room. The shades were drawn and the soft glow of the shaded lights made the rooms particularly lovely.

At the close of the games, refreshments were served at the small tables, each of which was centered with a brilliant poinsettia in a tall vase. The Christmas note prevailed in the refreshments, and an air of holiday gaiety and cheer animated the pleasant chatter over the coffee cups.

Mrs. B. E. Turner and Mrs. Hiram D. Connell tied for high score and Mrs. Turner, drawing the lucky card, was awarded a Christmas-like parcel wrapped in white tissue and gay with red ribbon. Similar gifts went to Mrs. Rutan, who, with Mrs. Fred Rafferty tied for second place, and to Mrs. P. B. Reynolds, who held low score.

Mrs. Baumgartner and Mrs. Stephenson were assisted by Mrs. Elia Palmer and Mrs. Doak, and by Misses Mary Lida Doak, Margaret Lyon, Juanita Snyder and Laura Davis.

The guest list included Mesdames Geo. S. Briggs, J. W. Bishop, E. B. Burns, Miss Rosa Boyd, Mesdames L. J. Carden, H. D. Connell, Rufus S. Chase, Fred Case, Adah Collins, C. S. Crookshank, A. J. Pretty Morning Wedding
The home of Dr. and Mrs. J. N. Bartholomew of North Broadway was the scene of a pretty wedding this morning at 10:30, when Miss Ethel M. Clark, for ten years directory clerk of the Pomona postoffice, and daughter of Mrs. Luella Clark of this city, became the bride of Charles E. Perrin of Upland, also a prominent rancher at Claremont. Rev. J. A. Stevenson performed the single ring ceremony.

Rev. Paul E. Wright performed the marriage ceremony yesterday at 1 p. m. at the parsonage for Thomas H. Lacy, son of Mr. and Mrs. Theo. Lacy, and Miss Lena Macho. Both the young people were born and raised in Santa Ana and have many friends who will wish them well in their new life.

Mr. Lacy is employed with the Santa Ana Co-operative Sugar Company and the couple will make their home here. The honeymoon is being spent in the northern part of the state.

"The Holy City"
Gaul's "Holy City" was beautifully rendered last evening by the choir of the First Baptist Church, with the assistance of Maurice Phillips, J. A. Benjamin and Mrs. M. Phillips. The music is of a decidedly high order and distinctly out of the ordinary. Percy K. Lusk at the organ, deserves the credit for much of the success of the undertaking.

The solo parts were taken by Miss Hester Billingsley, soprano; Miss Mame Havens, contralto; J. A. Benjamin, tenor, and Maurice Phillips, bass. A large audience greatly enjoyed the production.

Mr. and Mrs. Perrin left for a brief honeymoon before going to their home in Upland.

The wedding will come as a distinct surprise to the many friends of the young couple at Pomona and Upland, as they slipped away without making their plans known.

The witnesses to the ceremony were Dr. and Mrs. Bartholomew, Mrs. Luella Clark, Mr. and Mrs. E. Perrin, parents of the groom; Mr. and Mrs. Earl Clark, Glen Clark, Mr. and Mrs. Lloyd R. Clark, J. Stanford, Mrs. C. E. Houghton, Mrs. W. S. Cahoon and daughter, Virginia; Mr. and Mrs. C. C. Perrin, Miss Frances Whipp, Mr. and Mrs. A. Squires, Miss Clara Perrin, all of Pomona, and Miss Nora Bentley of Santa Ana.

At Leck Home
The home of Mr. and Mrs. Jasper Leck of Tustin was the scene of a delightful celebration on Christmas day. The house was charmingly decorated with holly and violets and a sumptuous turkey dinner was served.

There was a Christmas tree and gifts for all were distributed.

Those present besides the hosts were Mr. and Mrs. Ira Leck and baby Louise, E. Crawford, Dr. and Mrs. Harry Zaiser, Ira Leck and Miss Zena Leck.

"Enoch Arden" Friday
Miss Winifred Roberts and Miss Ray Knight will give "Enoch Arden" at the First Christian church Friday, New Year's eve. These young ladies have given this entertainment with marked success at other places.

A silver offering will be taken at the door for the benefit of Christ's Mission in Los Angeles.

As there will be no Register issued on Saturday, New Year's day, church notices will be published tomorrow. Please have them in by 10 a. m.

Lacy-Macho
Rev. Paul E. Wright performed the marriage ceremony yesterday at 1 p. m. at the parsonage for Thomas H. Lacy, son of Mr. and Mrs. Theo. Lacy, and Miss Lena Macho. Both the young people were born and raised in Santa Ana and have many friends who will wish them well in their new life.

Mr. Lacy is employed with the Santa Ana Co-operative Sugar Company and the couple will make their home here. The honeymoon is being spent in the northern part of the state.

"The Holy City"
Gaul's "Holy City" was beautifully rendered last evening by the choir of the First Baptist Church, with the assistance of Maurice Phillips, J. A. Benjamin and Mrs. M. Phillips. The music is of a decidedly high order and distinctly out of the ordinary. Percy K. Lusk at the organ, deserves the credit for much of the success of the undertaking.

The solo parts were taken by Miss Hester Billingsley, soprano; Miss Mame Havens, contralto; J. A. Benjamin, tenor, and Maurice Phillips, bass. A large audience greatly enjoyed the production.

A SALESMAN BUMPS HEAD AGAINST TRUCK

Tuesday morning at 5:40 o'clock, Andrew Youngquist, a salesman for the Standard Oil, started up the Brea road on his daily trip. Near the Brea bridge, he ran head first into a motor truck. That was the last he knew about it. He was severely cut over the eye. The driver of the truck stopped and loaded the unconscious man and the wheel onto his truck, to bring him in, but Nelson, who knew Mr. Youngquist, happened to come along just then, and took the wounded man home. The victim of the accident suffered intense pain all day and last night, but this morning is resting well. The injuries are not serious, but he will be laid up for several days. Youngquist cannot remember the details of the accident very clearly.

WAR UPON PAIN!
Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal., writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new."—March, 1915. CYCLO-STORMOGRAPH WILL PREDICT STATE OF WEATHER LOCALLY

An uncanny kind of a machine has been placed in S. Hill & Son's window on East Fourth street. Its performances are about as peculiar as its name, and its name is "cyclo-stormograph."

It is declared for this apparatus that it can predict the state of the weather for from twelve to twenty-four hours in advance. Along with the machine is a weather forecast card that tells the reader what the lines drawn on the chart mean. It is claimed for the cyclo-stormograph that its predictions have a high percentage of accuracy.

This addition to S. Hill's window makes it more of a weather window than ever before. For years the store has kept rainfall records, which have been posted in the window.

Grain Crop Aided
"This is a fine rain," said County Horticultural Commissioner Roy K. Bishop, today. "It came just at the right time. It helps the cover crops, and is a great benefit to the grain that has been sowed. The rain is a material benefit to the entire county. The top of the ground is being soaked, which is a good thing, as the soil was becoming quite dry during the past few weeks. Feed in the hills is being helped to grow. The rain came here as though it had been ordered. 'Nothing could be better than the present rain,' said M. S. Davis of El Modena section have not been doing anything to their lands during the past week or two and they are welcoming the rain. Cover crops are being helped immensely. Everyone is satisfied."

TODAY HEARS SAN PASQUAL RANCH CLAIM

Letters Introduced by Defense To Show That J. A. Stewart Was Not Employee

Today Judge Thomas is taking evidence in the action brought by John A. Stewart against the San Pasqual Ranch Company, owner of a ranch at Escondido. Stewart is asking for an order to compel the recognition of a claim of \$750 for services as an employee of the ranch, and for an order to compel the company to issue him a receipt, checked against that claim, for \$750, the amount of an assessment upon stock in the company held by Stewart.

The defense declares that no money is due Stewart. A. I. Stewart, father of the plaintiff, was at one time manager of the company, in which J. E. Gowen and J. D. Thomas of Santa Ana and A. Pierotti and William Berkenstock of Placentia and A. I. Stewart are directors. A. I. Stewart received an injury, and had to have a leg amputated. He got to court today with the aid of crutches. The defense declares that after A. I. Stewart was incapacitated, the family lived upon the ranch, and that some stock and other articles were sold and not yet accounted for.

The attorneys for the defense are H. C. Head of Santa Ana and T. L. McFadden of Placentia. Ford and Hammon of Los Angeles represent the plaintiff. The first witness called was Mrs. A. I. Stewart, who gave testimony concerning the employment of her son. The defense introduced several letters and reports written to J. E. Gowen detailing work done on the ranch, in which there was no mention of any claim by the younger Stewart.

Well, Leap Year Is Near, Boys, Be Ready for Worst

Local Bachelors Tremble As Year 1915 Draws To Its Close

At the stroke of midnight tomorrow night the year 1915 will be ushered in. This fact has a peculiar significance for the confirmed bachelors of Santa Ana for the reason that 1916 will be Leap Year.

The most confirmed and chronic bachelors are viewing the prospect of Leap Year with nonchalance and disdain. But the less caloused among male unmarried Santa Anas are taken with fear and trembling whenever they are reminded that the dread year is approaching.

There are four single men here who are all that remains of the once flourishing Bohemian Club, organized about seven or eight years ago, for the avowed purpose of keeping its members serenely aloof on the sea of single blessedness.

There were eleven members in the club at the time it was organized. One by one the membership decreased. Sadly, impotently, the dwindling membership bade goodbye to those back-sliding Bohemians who had allowed themselves to be snared in the meshes of matrimony.

The four Bohemians who still are eligible to be members of the organization are "Bill" Menton, Tarver Montgomery, Will Diers and Hal McCollough.

So far as could be learned today, Leap Year will hold no terrors for this quartette. These four Bohemians have weathered far too many Leap Year storms to regard the prospect with awe.

Some doubt is felt in the case of Menton. It is believed that the example set yesterday by his colleague, Clyde Bishop, may have the effect of stimulating Menton to do likewise.

Like Bishop, Sid Smithwick was another who chose not to wait for Leap Year. Sid jumped boldly into the sea of conjugal felicity several months ago. Both Sid and "Bish" evidently believed it would be far better to have some say-so in regard to their destinies rather than take chances on Leap Year.

The very fact that the unmarried of Santa Ana are tottering on the brink of Leap Year is regarded as significant. Whispers started by Dan Cupid have been going the rounds here during the past few months and the news that the days of love will find new marks among the bachelors here in 1916 will not come as a surprise to many Santa Anas who keep in touch with matters of this kind.

It cannot be gainsaid that the local force which stands ready to combat the wiles of the fair sex during Leap Year in Santa Ana is an imposing one.

A glance at the partial list of the names of those who will be legitimate Leap Year prizes here should be enough to send shivers of doubt and apprehension into the hearts of the ladies who may be considering exercising their Leap Year prerogatives.

There can be no doubt that not a one of the following are thoroughly well aware that 1916 is nigh and that all will take extra precautions to prevent themselves from becoming victims. Here is the list: Ross Waffle, Dr. Garland C. Ross, Harvey Gardner, Dr. Boyd, Stanley Reinhaus, Charles Woodford, E. A. White, Claude Sleeper, Bill McCulloch, Ernest Madden, Paul Knauf, Franklin Grouard, Orville Waters, and, of course, the four members of the now obsolete Bohemian Club, Menton, Montgomery, Diers and McCollough.

IN THE JUSTICE COURT EMBEZZLEMENT OF BUICK AUTOMOBILE ALLEGATION MADE

C. D. Hudson Secures Complaint Against D. S. McPherson—Court Notes

A charge of felony embezzlement has been lodged in the district attorney's office by C. D. Hudson against D. S. McPherson. Hudson alleges that McPherson turned to his own use a Buick automobile worth \$500 turned over to McPherson as bailee by the Russell Motor Sales Company.

Caravantes Case
Harry T. Caravantes, who, his wife says, compelled her to forge a check, walked into jail to see if he could not get his wife freed. Deputy Sheriff Lacy locked him up. Caravantes had the air of injured innocence, but the officers are confident that they have a strong case against Caravantes. His preliminary examination is set for December 31.

Court Notes
The trial of E. A. Logsdon, charged with slashing a tire of a Crown Stage, has been set for January 28.
Frank Rodriguez was held to answer on a charge of non-support of his minor child.
Margarito Garcia was given a thirty-day suspended sentence. A more serious charge brought against Garcia at San Juan Capistrano was dismissed.

MOTOR MAKERS JOIN MARTIN IN AERO PLAN

Aviator Wires Deal Is Closed, Details of Which Are Not Known Here

Mr. and Mrs. C. Y. Martin of Santa Ana have received a telegram from their son, Glenn L. Martin, the aviator and aeroplane manufacturer, stating that he had put through a big deal with the Packard and Hudson Motor Car companies whereby they are to become associated with Martin in the making of aeroplanes.

Details of the plan are not known here. It is known, however, that it means an enlarged field for the operations of the successful Santa Ana inventor-flier. Martin has been in the East for several weeks, and it is known that he has closed negotiations with the government for aeroplane orders.

COLORADO WILL BE "DRY"

DENVER, Dec. 30.—Colorado's saloons and liquor stores, to be closed by law after tomorrow night, enjoyed great and final prosperity today. Customers were taking home supplies for the expected long dry spell. There were many joblot bargains of beer, wines and whiskies. After tomorrow liquor can be bought in Colorado only on a physician's prescription or imported for private home consumption. The state had 1600 saloons.

One of the saloon keepers forced to close up is the Colorado Fuel and Iron Company, owned by John D. Rockefeller. Their mining camp saloons will be forced out with the rest.

LOBSTERS ALONG COAST RAPIDLY INCREASING, SAYS DEPUTY

Doves, Quail, Ducks Plentiful In the South, Is Word Of Official

Harry Becker, deputy fish and game commissioner at Los Angeles, has made a trip into Orange and San Diego counties on patrol and market-license collection. Becker was enthusiastic over the results of his trip.

"Lobsters are increasing on our coast because of the legal protection given them, and the enforcement of the law. Fishermen are in favor of the law in San Diego and Orange counties, and are making a good living now where they starved a few years ago or quit the business," said Becker today.

Deputy Becker and his companion also looked over the game fields, both killing the limit Sunday morning in the driving "norther" that was blowing. Becker states that parts of the O'Neill ranch traversed in going to San Onofre were literally buzzing with quail. This ranch of the O'Neill family is in effect a great game preserve, 30 by 40 miles. The hunters saw a great supply of doves also. Passing the slough at San Onofre, the ducks were in evidence. Many mallards and sprigs were seen, but spoonbill ducks were most plentiful as usual. Some men appeared to be having good shooting there.

The amount of game left at the end of the longest season Southern sportsmen have enjoyed in ten years is taken as plain proof to the value of the fish and game commission program of enforcement of good laws, augmented last July by Commissioner Connell when increasing the field patrol force.

AUSTIN SELLS SIX CARS DURING TWO WEEKS BEFORE XMAS

Holiday business was good with F. L. Austin, the Oakland dealer, who reports the sale of six cars during the two weeks before Christmas. The list of purchasers of Overland and Willys-Knight cars for Christmas is as follows: Albert Finley bought an Overland six cylinder car; J. M. Akir, a Willys-Knight touring car; Dr. J. I. Clark, a Willys-Knight roadster; T. M. Campbell, of Orange; Chas. H. Jeffries, of Villa Park and Wm. Ward, each purchased model 83 four-cylinder Overland cars.

RIVERSIDE SPEED COP RAKES IN VIOLATORS

Riverside Press—That Riverside has a "speed cop" who is on the job is evident from the number of arrests for this traffic violation on the police blotter.

Chief Van Kirk announces that he is after the traffic violators. He has instructed his "speed cop" to play no favorites. "I gave instructions to the traffic officer to give the motorcycle and automobile drivers the benefit of five miles above the limit in the outlying districts, but to bring them in when they attempt to make a race-track out of the streets of the city," the chief, stated.

AUTO THIEVES ARE ORGANIZED, REPORT

CLEVELAND, OHIO, Dec. 30—Investigations of the police departments of this city and Pittsburgh have convinced the official, it is said, that an organized band of motor car thieves is operating in the central states. Captain B. R. Marshall of the Pittsburgh police traffic squad has been here on the lookout for three cars stolen in that city and shipped here and sold. They were found in the garages of local dealers who had been victimized by the thieves. The information in regard to the operations of the band was obtained through the arrest of a young man in Pittsburgh on the charge of stealing a car. Papers and letters led to the conclusion that the work is carried on systematically. Cars stolen in one city are shipped to another and traded in on new machines, the difference being paid in cash. The new machines are then sold through the medium of newspaper advertising.

COULDN'T GO WITH FORD, BOYCOTTS CAR

Because he was ignored in the Ford Peace exhibition, Dr. Moses Stearn, former candidate for mayor of Philadelphia, Pa., has decided to boycott the Ford car, according to an announcement he recently made. He asserted that Louis Block, manager of the Philadelphia Ford branch, had compensated him with \$10 for his outlay for collars, shirts and a life preserver in preparation for the trip.

JAMES J. CALLAHAN, who was succeeded last year by Clarence Rowland as manager of the White Sox, has been named by Barney Dreyfuss to succeed Fred Clarke as manager of the Pittsburgh club. Callahan recently accepted terms to manage the Los Angeles club of the Pacific Coast League, and the owners are satisfied with a deal proposed by Dreyfuss.

MAXWELL RECORD NON-STOP CAR STILL RUNS

With Mileage of 18,504, Car Pays Visit To C. B. Perry Here Yesterday

The Los Angeles Maxwell "25" that has beaten all non-stop records was in Santa Ana yesterday. The car started on November 22 and up to yesterday had reached the phenomenal mileage of 18,504 miles and still there is no indication of its stopping. The car has two of the original tires with which it started.

C. B. Perry, local Maxwell agent is keenly interested in the performance of the non-stop car. He predicts that the car will exceed 20,000 miles before it stops running.

TIRE PRICE RAISE NEAR, PREDICTION

CHICAGO, Dec. 30—Reports are current that a raise in tire prices is imminent, and that increases will come after the first of the year, although it is not clear just to what extent prices will be raised, or who will take the initiative. Tire manufacturers believe an increase in prices is more than justified by the increasing cost of materials and that advances will become inevitable in the near future.

By far the largest portion of tire costs is represented by the material, only about 15 percent being represented by labor, overhead and similar expenses. Oxide of zinc, which is used extensively, has increased in price about 65 percent while cotton fabric costs almost 40 percent more than it did last year. Rubber has gone up steadily in the last month, the increase being about 20 percent with indications of a further advance. The large tire companies are buying for future requirements.

STRICT TRAFFIC LAWS IN ATLANTA, GEORGIA

Pedestrians in Atlanta, Ga., as well as vehicles, are provided with rules in the new traffic ordinance which is now going through the city council's mill. One of the rules laid down for pedestrians is that "pedestrians must avoid interference with vehicular traffic and shall not step from sidewalk to street without taking careful notice of what is approaching. Another clause provides that they must proceed to the nearest curb on alighting from street cars. This is expected to eliminate accidents caused by pedestrians coming from behind the car when a machine is approaching. The penalty of a fine up to \$50 or imprisonment with a maximum of 15 days, or both, applies to pedestrians also.

TRAP SHOOTING FAST BECOMING REAL SPORT IN SOUTH

Possibility of County Shooters Taking Up Pastime; Interest Keen

There is a possibility that trap shooting will be revived in Orange county. A wave of enthusiasm for the sport is sweeping over Southern California and there is good chance of local shooters taking it up.

Trap shooting at the Los Angeles gun clubs is getting to be a genuine sport. About a year ago a certain few would be the winners Sunday after Sunday or whenever a tournament was held. Today a different story is seen by a glance over the scores after a Sunday shoot.

For the last two months the Vernon Gun club has been holding fifty-target shoots on Sundays. A prize, something out of the ordinary trophy cup class—a handsome gold mounted fountain pen encrusted with diamonds—has been put up by Billy Wilshire, a local shot-gun crack, and trapshooting enthusiast. The conditions for winning this, call for three wins.

It is almost hard to believe that since the Vernon club has had this prize cup up for competition no individual shooter has won it more than once.

The shooter that was lucky enough to win a leg certainly had to jump for all he was worth. Scores such as forty-nine out of fifty, forty-eight and forty-seven are usually the scores to win a leg, and the shooter to get a score like this usually has about three competitors who tie for second place and are only one or two birds behind him.

The cracks that used to cop the trophies and various other things up for competition have won a leg, but that is all. The next time they competed for the trophy, some shooter would plow through and win.

Last Sunday Harry Cline, a shooter from the L. A. A. C. squad, won with a 47x50 score. A year ago Cline shot from the scratch and was classed as a C. man.

Women will be permitted to shoot in the Grand American Handicap, in 1916.

Portland, Ore., Spokane and Minneapolis have gun clubs that stage their weekly trapshooting competitions on Sunday mornings.

Annie Oakley, the greatest of women shooters, is now teaching a class of ladies how to shoot, said class being located at the famous winter resort, Pinehurst, N. C.

Arthur Wilson, catcher of the Chicago Cubs, and Gover Hartley, catcher for the St. Louis Browns, became interested in trapshooting when they saw Bender, Davis, Mathewson and Crandall crushing the clay boys, and they have engaged the services of the professional shot, H. W. Cadwalder, to instruct them. They are wintering in Decatur, Ill.

The Southwestern and Pacific Coast trapshooting handicap tournaments have been abandoned for 1916 because no organization put in bids for them.

"The farthest north" gun club is situated at Nome, Alaska. The "gold diggers" are not satisfied with this claim, and every once in a while pull off a midnight target shoot under the northern sun. They're enterprising in the gold country.

The high water* of the rivers and lakes has greatly interfered with the duck shooting in Illinois.

Mrs. Harold Almer of Chicago, American woman trapshooting champion, is the mother of two children, which is quite a boost for women's suffrage. The antis say that women's place is in the home. Mrs. Almer takes care of her home and has a little time to spare for "the sport alluring."

It is a poor Saturday in and about Philadelphia when there are not at least twenty-five trapshooting tournaments scheduled at the various clubs.

The Minneapolis Gun club, the St. Paul Gun club, and the Minneapolis Athletic club's gun department have amalgamated under the name of the Twin City Gun club.

Nearly 2000 deer were killed in Pennsylvania this season, which is 900 more than were slaughtered last year. In New York, Massachusetts and Wisconsin the number of deer killed was less than half the number that was killed in 1914. The slaughter is beginning to tell.

JIT DRIVER ATTACKED

LOS ANGELES, Dec. 29—Beaten into insensibility, Archie Sneed, 944 West Sixth street, a jitney bus driver, was robbed of \$20 and his automobile and was abandoned for dead early today at Tenth and Georgia streets. Sneed was attacked by two passengers who boarded his bus at Sixth and Spring streets. At Tenth and Georgia they attacked him with black jacks, knocked him unconscious, took his money and threw him into the gutter. Then they drove away in his automobile.

East and West Coasts Will Clash for Gridiron Supremacy Following Tournament of Roses New Year's Day at Pasadena, California

Brown University Squad which crosses the Continent to Play Single Game at Pasadena

Washington State College Pacific Coast Champions for Eight Years

Dopesters at Sea Over Coming Contest; Interest For Fans As Result of Contrast of Eastern, Western Methods of Playing; Long Trip For Brown

By MORRIS M. RATHBUN

PASADENA, Cal., Dec. 30—When the far east meets the far west in the clash for football supremacy of the Atlantic and Pacific coasts here New Year's day the gridiron classic of the past season is expected.

Brown University squad will represent the east and Washington State University will attempt to uphold its record for no defeats in eight years. Brown will come to the west coast with a past season record marred only by 13 to 7 defeat in the game with Harvard.

Dopesters are somewhat at sea over the coming championship game, as it is expected that Brown will follow the most approved eastern football methods, having been trained in the school which has made famous that style of play at Harvard, Yale and Princeton. The style of course varies with the play of the westerners and the game is expected to have added zest for experts and fans, because of the opportunity it will afford to contrast the merits of the football methods of the east and west coasts.

Brown will make the longest trip ever made by any squad for a single game. They will carry 26 men more than 3,000 miles from Providence to Pasadena. In order to acclimate the teams to the warm climate in which they will play they arrived here some ten days in advance of the big game and practiced daily.

No Christmas Pie While the rigorous regime will be forced on the squads during the Christmas holidays and turkey, pie and similar highly seasoned foods will be taboo, there will be no lack of joy after the classic clash. The game will be in the afternoon following the far famed Tournament of Roses which has been held in Pasadena every New Year for more than a quarter century. The beautifully spectacular affair winds up with a grand ball in the evening which is the winter society event of the west coast.

Pasadena is credited with more millionaire homes in proportion to its population than any other city in the country and the Tournament of Roses is the pet annual function of the money kings. As both teams will be visitors in the city they will share equally the elaborate guest honors that are being planned.

The bare announcement that after years of effort a game finally has been arranged to test the supremacy of the east and west on the gridiron brought such a deluge of grand stand reservations that the Tournament of Roses association found themselves swamped for seating capacity. FORTH with a hurried search was made for ready made seats. They were found in a monster grand stand, one block long and seating 10,000 people, that had been used in Los Angeles during the great convention parades of the 1915 California expositions celebration. This will give a total seating

capacity of 28,490 for the big game in Tournament park.

It is almost impossible to imagine two teams more evenly matched physically so that the great contest should be one of method and ability. The difference in weight is only four-elevenths of a pound to the man, which is in favor of Washington State. The line weight average of the teams do not vary an ounce. Back of the line the average for Brown is 162, while Washington is 163. The average weight of the Brown line is 178-4.7; Washington line 178-4.7; Brown backs 162; Washington 163; Brown team average 172-6-11; Washington 172-10-11.

This average is based on the probable line-up for the New Year's game, which is as follows:

Weight Practically Even

Washington State College Pacific Coast Champions for Eight Years

not scored against by its opponents and in no game ever was in danger of defeat.

It is expected that with the ice once broken an inter-coast championship game will become an annual event. Pasadena is taking the initiative in the belief that no stronger attraction could be staged with its Tournament of Roses than a gridiron battle in which the entire country is interested. Leaders in amateur athletics in this section prophesy that the New Year's day game will be to football in the country what the Vnadervilt Cup race is in the Auto world.

PASADENA JAN. 1 BE FAIRYLAND OF MILLION BLOSSOMS

Brown, Washington Football Game; Movies to Film Parade; Gaiety

PASADENA, Cal., Dec. 30—With both championship football squads trained to a hair and a million blossoms ready for the floats in the Tournament of Roses, all is in readiness for the twenty-seventh annual New Year's day celebration here.

Preparation has been made for the largest crowd in history, 10,000 additional seats having been placed in Tournament park.

The day's program will open with the midwinter floral decorated with flowers, but not an artificial blossom will be allowed. Every city in Southern California will be represented in the parade.

At 1 o'clock in the afternoon the Universal Film company will take motion pictures of the pageant at tournament park in full view of the public. The floral spectacle will be worked into a Southland romance.

Following the pictures at 2:15 o'clock comes the clash for gridiron supremacy between the west and east coasts. The Washington State University squad will meet the Brown University huskies. The game is the first intercoastal ever staged, and it has aroused country wide interest.

In the evening a complimentary ball will be tendered the visiting football players.

BRISCOE SWAPS POWER PLANT IF ASKED

Will Install An Eight Motor, After Month's Trial Of Four

An interesting departure in automobile salesmanship has been inaugurated by the Briscoe Motor Car Company, a \$6,000,000 corporation which was re-organized at Jackson, Michigan, on December 15, according to A. S. Ralph, secretary of the Orange County Auto Club, who is local agent for the Briscoe line of cars.

The slogan of the Briscoe Company is, "Buy a Briscoe Four and run it a month. Then, if you prefer an Eight we will exchange motors for the difference in Price, \$200 plus the cost of installment."

The 1916 Briscoe Fours and Eights set at \$850 and \$1050, respectively.

"The new selling plan is a novel one," said Secretary Ralph today. "I venture to predict that it will meet with much popularity here. The Briscoe company stands ready to help the prospective motor purchaser decide whether the power plant in his 1916 car shall be a four or an eight cylinder motor."

The Briscoe line is a handsome one. Much favorable comment has been heard among local motor fans who have studied the lines of the cars.

DUCK HUNTING AT JOAQUIN CLUB O. K.

Duck hunting at the San Joaquin Duck Club continues good. Andrew Laird, the keeper, reports. Five Angelenos, who hunted at the club Sunday succeeded in getting limits. Geese are also being shot, according to Laird. One of the Los Angeles men got five white geese and one got three Canadian honker geese.

Yesterday six club members hunted, all getting limits. Several of the men succeeded in getting limits by 7:30 o'clock in the morning. Those in the party were Dr. H. W. Howard, E. A. Klokke, Carl Klokke, W. J. Hole, M. W. Hole and Orrie Monette.

MAKES ESTIMATE ON CAR TAX REVENUE

WASHINGTON, D. C., Dec. 30—The secretary of the treasury, in answer to a resolution adopted by the senate regarding the estimated revenue should taxes be laid upon motor cars and tea, has sent to the senate a report showing a tax of 25 cents per horsepower on motor cars, the tax to be paid by the manufacturers, would bring \$5,250,000. Senator Gore was the author of the resolution seeking the information. It is understood that he will make use of it later when the question of raising further revenue for the government is before the senate.

TOMORROW LAST DAY FOR QUAIL HUNTING

Tomorrow is the last day of the open season for quail, and it is also the last day of the open season for rabbits. A number of Santa Ana hunters are figuring on getting out for just one more hunt before the seasons close. After that hunting ceases, gunners in this section will have to content themselves for a month with duck shooting, and after that comes the long period when they can hunt nothing.

MULTIPLE CHAMBERS FOR TIRES INVENTED

A tire of novel construction, intended to solve the puncture problem has been invented and patented by J. Webb Turner, Kirksville, Mo., who, until recently was a salesman for the Columbia Pneumatic Tire Co. Turner's invention is a multiple chamber filling for the casing as a substitute for the inner tube. A number of separate egg-shaped rubber balloons, each filled through a separate valve, are placed in the casing. When one of these chambers or balloons is punctured, the inventor claims, the others expand to fill the space formerly occupied by the punctured balloon and the pressure within the tire is maintained. From sixteen to eighteen balloons are to be used to a tire, according to its size and the inventor says, it will be possible to puncture several balloons in a tire without materially reducing the air pressure. Turner is now making plans for marketing the invention.

COVER TEXAS HIGHWAY WITH TAR, IS REPORT

At the recent annual convention of the Texas division of the Meridian Highway Association, which was held at Temple, Tex., D. E. Clap, San Antonio, was re-elected president. Reports were made by delegates from the different counties along the route of the proposed highway as to the progress that is being made in the construction of the different connecting links. For the most part these reports were of a gratifying nature. In his address President Clap stated that the road between Austin and San Antonio, for a distance of 50 miles, is being treated with tar, and a movement to plant shade trees along the entire highway is well advanced. The 150 miles of road between San Antonio and Laredo, on the Rio Grande, is in good condition. President Clap urged that markers be placed along the highway for the guidance of travelers.

JACK FROST PUT TO FLIGHT AS WELCOME RAIN SOAKS LAND

(CONTINUED FROM PAGE 1)

Grain Crop Aided
"This is a fine rain," said County Agricultural Commissioner Roy K. Bishop, today. "It came just at the right time. It helps the cover crops, and is a great benefit to the grain that has been sowed. The rain is a material benefit to the entire county. The top of the ground is being soaked, which is a good thing, as the soil was becoming quite dry during the past few weeks. Feed in the hills is being helped to grow. The rain came here as though it had been ordered."

son made a trip to Silverado canyon today to see the snow. He got into a snowstorm near the Santiago mines in Silverado canyon, twenty miles from here. He said that snow fell there all last night, and was still falling at noon today. He found about four inches of snow on the level. Hutchinson loaded a lot of the novelty stuff into his machine and brought it here. There was enough of it to furnish fuel for a small-sized snowball battle.

BLIZZARDS RAGE
LOS ANGELES, Dec. 30.—Blizzards today are raging in the mountains. Snow reached the foothill vineyards near Pasadena.

There was a light snowfall in the Orange belt section. Zero weather prevails in the mountains above Grass Valley.

A bitter northwest gale is sweeping the San Joaquin Valley.

There is snow at Sanford, Lemoore, Goshen, the Coalinga hills and at Alpaugh.

Snow fell today in Los Angeles and its suburbs. Cars arriving from Santa Monica and other beach towns had roofs covered with white. Bystanders grabbed up snow and there were snowball fights in the downtown streets.

Oxnard reported snow at Piru Valley, Old Baldy, Malibu and Conejo. Clouds of wind saved the Santa Paula lemons.

Deer were driven into the lower parts of the Santa Anita Canyon.

The snow was pretty general throughout Southern California.

Government forest rangers reported blizzards raging at Mount Wilson and Mount Love. Four inches fell in two hours.

Ontario Sees Snow
ONTARIO, Dec. 30.—There were snow flurries here today. There was fourteen inches of snow at the mouth of the San Antonio Canyon. Orange ranchers fear only a freeze tonight. If the rain continues the crops will be safe. The valley snow is blanketed five miles in from the hills.

Snow at Beaches
SANTA MONICA, Dec. 30.—Snow fell at Santa Monica, Venice, Ocean Park and Sawtelle in light flurries. There was none on the ground.

PASADENA, Dec. 30.—The Tournament of Roses decorations today hung limply. A few hours of sunshine will save the great New Year's festival's decorations. The promoters are optimistic. They believe clearing weather may make ideal tournament conditions.

BAY CITY SHIVERS
SAN FRANCISCO, Dec. 30.—The chilliest weather of the winter prevails here. There is a light snow on the summit of Mount Tamalpais. The thermometer is around freezing.

Dies in East Blizzard
NEW YORK, Dec. 30.—The worst blizzard in years today swept Buffalo and the eastern Great Lakes district. There is twelve inches of snow. There was a wild gale at Uniontown, Pa., in which one was killed.

AT THE COURT HOUSE

TODAY HEARS SAN PASQUAL RANCH CLAIM

Letters Introduced by Defense
To Show That J. A. Stewart
Was Not Employee

Today Judge Thomas is taking evidence in the action brought by John A. Stewart against the San Pasqual Ranch Company, owner of a ranch at Escondido. Stewart is asking for an order to compel the recognition of a claim of \$750 for services as an employee of the ranch, and for an order to compel the company to issue him a receipt, checked against that claim, for \$750, the amount of an assessment upon stock in the company held by Stewart.

The defense declares that no money is due Stewart. A. I. Stewart, father of the plaintiff, was at one time manager of the company, in which J. E. Gowen and J. D. Thomas of Santa Ana and A. Pierotti and William Berkenstock of Placentia and A. I. Stewart are directors. A. I. Stewart received an injury, and had to have a leg amputated. He got to court today with the aid of crutches. The defense declares that after A. I. Stewart was incapacitated, the family lived upon the ranch, and that some stock and other articles were sold and not yet accounted for.

The attorneys for the defense are H. C. Head of Santa Ana and T. L. McFadden of Placentia. Ford and Hammond of Los Angeles represent the plaintiff. The first witness called was Mrs. A. I. Stewart, who gave testimony concerning the employment of her son. The defense introduced several letters and reports written to J. E. Gowen detailing work done on the ranch, in which there was no mention of any claim by the younger Stewart.

Appeal Case
Today there was filed an appeal from the Anaheim township court in which judgment upon an old judgment was given Henry Hustmann against W. A. Franz, for \$299. Tipton & Cailor are attorneys for Hustmann and F. C. Spencer for Franz.

Well, Leap Year Is Near, Boys, Be Ready for Worst

Local Bachelors Tremble As
Year 1915 Draws To
Its Close

At the stroke of midnight tomorrow night the year 1916 will be ushered in. This fact has a peculiar significance for the confirmed bachelors of Santa Ana for the reason that 1916 will be Leap Year.

The most confirmed and chronic bachelors are viewing the prospect of Leap Year with nonchalance and disdain. But the less caloused among male unmarried Santa Anans are taken with fear and trembling whenever they are reminded that the dread year is approaching.

There are four single men here who are all that remains of the once flourishing Bohemian Club, organized about seven or eight years ago, for the avowed purpose of keeping its members serenely aloof on the sea of single blessedness.

There were eleven members in the club at the time it was organized. One by one the membership decreased. Sadly, impotently, the dwindling membership bade good-bye to those back-sliding Bohemians who had allowed themselves to be snared in the meshes of matrimony.

The four Bohemians who still are eligible to be members of the organization are "Bill" Menton, Tarver Montgomery, Will Diers and Hal McCollough.

So far as could be learned today, Leap Year will hold no terrors for this quartette. These four Bohemians have weathered far too many Leap Year storms to regard the prospect with awe.

Some doubt is felt in the case of Menton. It is believed that the example set yesterday by his colleague, Clyde Bishop, may have the effect of stimulating Menton to do likewise.

Like Bishop, Sid Smithwick was another who chose not to wait for Leap Year. Sid jumped boldly into the sea of conjugal felicity several months ago. Both Sid and "Bish" evidently believed it would be far better to have some say-so in regard to their destinies rather than take chances on Leap Year.

The very fact that the unmarried of Santa Ana are tottering on the brink of Leap Year is regarded as significant. Whispers started by Dan Cupid have been going the rounds here during the past few months and the news that the darts of love will find new marks among the bachelors here in 1916 will not come as a surprise to many Santa Anans who keep in touch with matters of this kind.

It cannot be gainsaid that the local force which stands ready to combat the wiles of the fair sex during Leap Year in Santa Ana is an imposing one. A glance at the partial list of the names of those who will be legitimate Leap Year prizes here should be enough to send shivers of doubt and apprehension into the hearts of the ladies who may be considering exercising their Leap Year prerogatives.

There can be no doubt that not a one of the following are thoroughly well aware that 1916 is nigh and that all will take effective precautions to prevent themselves from becoming victims. Here is the list: Ross Walke, Dr. Garland C. Ross, Harvey Gardner, Dr. Boyd, Stanley Reinhaus, Charles Woodford, E. A. White, Claude Sleeper, Bill McCulloch, Ernest Madden, Paul Knauf, Franklin Grouard, Orville Waters, and, of course, the four members of the now obsolete Bohemian Club, Menton, Montgomery, Diers and McCollough.

C. D. Hudson Secures Complaint Against D. S. McPherson—Court Notes

A charge of felony embezzlement has been lodged in the district attorney's office by C. D. Hudson against D. S. McPherson. Hudson alleges that McPherson turned to his own use a Buick automobile worth \$500 turned over to McPherson as bailee by the Russell Motor Sales Company.

Caravantes Case
Harry T. Caravantes, who, his wife says, compelled her to forge a check, walked into jail to see if he could not get his wife freed. Deputy Sheriff Lacy locked him up. Caravantes had the air of injured innocence, but the officers are confident that they have a strong case against Caravantes. His preliminary examination is set for December 31.

Court Notes
The trial of E. A. Lossdon, charged with slashing a tire of a Crown Stage, has been set for January 28.
Frank Rodriguez was held to answer on a charge of non-support of his minor child.
Margarito Garcia was given a thirty-day suspended sentence. A more serious charge brought against Garcia at San Juan Capistrano was dismissed.

MOTOR MAKERS JOIN MARTIN IN AERO PLAN

Aviator Wires Deal Is Closed,
Details of Which Are Not
Known Here

Mr. and Mrs. C. Y. Martin of Santa Ana have received a telegram from their son, Glenn L. Martin, the aviator and aeroplane manufacturer, stating that he had put through a big deal with the Packard and Hudson Motor Car companies whereby they are to become associated with Martin in the making of aeroplanes.

Details of the plan are not known here. It is known, however, that it means an enlarged field for the operations of the successful Santa Ana inventor-flier. Martin has been in the East for several weeks, and it is known that he has closed negotiations with the government for aeroplane orders.

COLORADO WILL BE "DRY"

DENVER, Dec. 30.—Colorado's saloons and liquor stores, to be closed by law after tomorrow night, enjoyed great and final prosperity today. Customers were taking home supplies for the expected long dry spell. There were many joblot bargains of beer, wines and whiskies. After tomorrow liquor can be bought in Colorado only on a physician's prescription or imported for private home consumption. The state had 1600 saloons.

One of the saloon keepers forced to close up is the Colorado Fuel and Iron Company, owned by John D. Rockefeller. Their mining camp saloons will be forced out with the rest.

SANTA ANA DAILY REGISTER, THURSDAY EVENING, DECEMBER 30, 1915.

LOBSTERS ALONG COAST RAPIDLY INCREASING, SAYS DEPUTY

Doves, Quail, Ducks Plentiful In the South, Is Word Of Official

Harry Becker, deputy fish and game commissioner at Los Angeles, has made a trip into Orange and San Diego counties on patrol and market-license collection. Becker was enthusiastic over the results of his trip.

"Lobsters are increasing on our coast because of the legal protection given them, and the enforcement of the law. Fishermen are in favor of the law in San Diego and Orange counties, and are making a good living now where they starved a few years ago or quit the business," said Becker today.

Deputy Becker and his companion also looked over the game fields, both killing the limit Sunday morning in the driving "norther" that was blowing. Becker states that parts of the O'Neill ranch traversed in going to San Onofre were literally buzzing with quail. This ranch of the O'Neill family is in effect a great game preserve, 30 by 40 miles. The hunters saw a great supply of doves also. Passing the slough at San Onofre, the ducks were in evidence. Many mallards and sprigs were seen, but spoonbill ducks were most plentiful as usual. Some men appeared to be having good shooting there.

The amount of game left at the end of the longest season Southern sportsmen have enjoyed in ten years is taken as plain proof to the value of the fish and game commission program of enforcement of good laws, augmented last July by Commissioner Connell when increasing the field patrol force.

AUSTIN SELLS SIX CARS DURING TWO WEEKS BEFORE XMAS

Holiday business was good with F. L. Austin, the Oakland dealer, who reports the sale of six cars during the two weeks before Christmas. The list of purchasers of Overland and Willys-Knight cars for Christmas is as follows: Albert Finley bought an Overland six cylinder car; J. M. Akin, a Willys-Knight touring car; Dr. J. I. Clark, a Willys-Knight roadster; T. M. Campbell, of Orange; Chas. H. Jeffries, of Villa Park and Wm. Ward, each purchased model 83 four-cylinder Overland cars.

RIVERSIDE SPEED COP RAKES IN VIOLATORS

Riverside Press—That Riverside has a "speed cop" who is on the job is evident from the number of arrests for this traffic violation on the police blotter.

Chief Van Kirk announces that he is after the traffic violators. He has instructed his "speed cop" to play no favorites. "I gave instructions to the traffic officer to give the motorcycle and automobile drivers the benefit of five miles above the limit in the outlying districts, but to bring them in when they attempt to make a race-track out of the streets of the city," the chief stated.

AUTO THIEVES ARE ORGANIZED, REPORT

CLEVELAND, OHIO, Dec. 30—Investigations of the police departments of this city and Pittsburgh have convinced the official, it is said, that an organized band of motor car thieves is operating in the central states. Captain B. R. Marshall of the Pittsburgh police traffic squad has been here on the lookout for three cars stolen in that city and shipped here and sold. They were found in the garages of local dealers who had been victimized by the thieves. The information in regard to the operations of the band was obtained through the arrest of a young man in Pittsburgh on the charge of stealing a car. Papers and letters led to the conclusion that the work is carried on systematically. Cars stolen in one city are shipped to another and traded in on new machines, the difference being paid in cash. The new machines are then sold through the medium of newspaper advertising.

COULDN'T GO WITH FORD, BOYCOTTS CAR

Because he was ignored in the Ford Peace exhibition, Dr. Moses Stearn, former candidate for mayor of Philadelphia, Pa., has decided to boycott the Ford car, according to an announcement he recently made. He also asserted that Louis Block, manager of the Philadelphia Ford branch, had compensated him with \$10 for his outlay for collars, shirts and a life preserver in preparation for the trip.

JAMES J. CALLAHAN, who was succeeded last year by Clarence Rowland as manager of the White Sox, has been named by Barney Dreyfuss to succeed Fred Clarke as manager of the Pittsburgh club. Callahan recently accepted terms to manage the Los Angeles club of the Pacific Coast League, and the owners are satisfied with a deal proposed by Dreyfuss.

MAXWELL RECORD NON-STOP CAR STILL RUNS

With Mileage of 18,504, Car Pays Visit To C. B. Perry Here Yesterday

The Los Angeles Maxwell "25" that has beaten all non-stop records was in Santa Ana yesterday. The car started on November 22 and up to yesterday had reached the phenomenal mileage of 18,504 miles and still there are no indications of its stopping. The car has two of the original tires with which it started.

C. B. Perry, local Maxwell agent is keenly interested in the performance of the non-stop car. He predicts that the car will exceed 20,000 miles before it stops running.

TIRE PRICE RAISE NEAR, PREDICTION

CHICAGO, Dec. 30—Reports are current that a raise in tire prices is imminent, and that increases will come after the first of the year, although it is not clear just to what extent prices will be raised, or who will take the initiative. Tire manufacturers believe an increase in prices is more than justified by the increasing cost of materials and that advances will become inevitable in the near future.

By far the largest portion of tire costs is represented by the material, only about 15 percent being represented by labor, overhead and similar expenses. Oxide of zinc, which is used extensively in manufacturing white rubber, has increased in price about 65 per cent while cotton fabric costs almost 40 percent more than it did last year. Rubber has gone up steadily in the last month, the increase being about 20 per cent with indications of a further advance. The large tire companies are buying for future requirements.

STRICT TRAFFIC LAWS IN ATLANTA, GEORGIA

Pedestrians in Atlanta, Ga., as well as vehicles, are provided with rules in the new traffic ordinance which is now going through the city council's mill. One of the rules laid down for pedestrians is that "pedestrians must avoid interference with vehicular traffic and shall not step from sidewalk to street without taking careful notice of what is approaching. Another clause provides that they must proceed to the nearest curb on alighting from street cars. This is expected to eliminate accidents caused by pedestrians coming from behind the car when a machine is approaching. The penalty of a fine up to \$50 or imprisonment with a maximum of 15 days, or both, applies to pedestrians also.

TRAP SHOOTING FAST BECOMING REAL SPORT IN SOUTH

Possibility of County Shooters Taking Up Pastime; Interest Keen

There is a possibility that trap shooting will be revived in Orange county. A wave of enthusiasm for the sport is sweeping over Southern California and there is good chance of local shooters taking it up.

Trapshooting at the Los Angeles gun clubs is getting to be a genuine sport. About a year ago a certain few would be the winners Sunday after Sunday or whenever a tournament was held. Today a different story is seen by a glance over the scores after a Sunday shoot.

For the last two months the Vernon Gun club has been holding fifty-target shoots on Sundays. A prize, something out of the ordinary trophy cup class—a handsome gold mounted fountain pen encrusted with diamonds—has been put up by Billy Wilshire, a local shot-gun crack, and trapshooting enthusiast. The conditions for winning this, call for three wins.

It is almost hard to believe that since the Vernon club has had this prize cup up for competition no individual shooter has won it more than once.

The shooter that was lucky enough to win a leg certainly had to hump for all he was worth. Scores such as forty-nine out of fifty, forty-eight and forty-seven are usually the scores to win a leg, and the shooter to get a score like this usually has about three competitors who tie for second place and are only one or two birds behind him.

The cracks that used to cop the trophies and various other things up for competition have won a leg, but that is all. The next time they competed for the trophy, some shooter would plow through and win.

Last Sunday Harry Cline, a shooter from the L. A. A. C. squad, won with a 47x50 score. A year ago Cline shot from the scratch and was classed as a C. man.

Women will be permitted to shoot in the Grand American Handicap, in 1916.

Portland, Ore., Spokane and Minneapolis have gun clubs that stage their weekly trapshooting competitions on Sunday mornings.

Annie Oakley, the greatest of women shooters, is now teaching a class of ladies how to shoot, said class being located at the famous winter resort, Pinchurst, N. C.

Arthur Wilson, catcher of the Chicago Cubs, and Gover Hartley, catcher for the St. Louis Cubs, became interested in trapshooting when they saw Bender, Davis, Mathewson and Crandall crushing the clay boys, and they have engaged the services of the professional shot, H. W. Cadwalder, to instruct them. They are wintering in Decatur, Ill.

The Southwestern and Pacific Coast trapshooting handicap tournaments have been abandoned for 1916 because no organization put in bids for them.

"The farthest north" gun club is situated at Nome, Alaska. The "gold diggers" are not satisfied with this claim, and every once in a while pull off a midnight target shoot under the northern sun. They're enterprising in the gold country.

The high water* of the rivers and lakes has greatly interfered with the duck shooting in Illinois.

Mrs. Harold Almer of Chicago, American woman trapshooting champion, is the mother of two children, which is quite a boost for women's suffrage. The anti-s that women's place is in the home. Mrs. Almer takes care of her home and has a little time to spare for "the sport alluring."

It is a poor Saturday in and about Philadelphia when there are not at least twenty-five trapshooting tournaments scheduled at the various clubs.

The Minneapolis Gun club, the St. Paul Gun club, and the Minneapolis Athletic club's gun department have amalgamated under the name of the Twin City Gun club.

Nearly 2000 deer were killed in Pennsylvania this season, which is 900 more than were slaughtered last year. In New York, Massachusetts and Wisconsin the number of deer killed was less than half the number that was killed in 1914. The slaughter is beginning to tell.

JIT DRIVER ATTACKED

LOS ANGELES, Dec. 29.—Beaten into insensibility, Archie Sneed, 944 West Sixth street, a jitney bus driver, was robbed of \$20 and his automobile and was abandoned for dead early today at Tenth and Georgia streets.

Sneed was attacked by two passengers who boarded his bus at Sixth and Spring streets. At Tenth and Georgia they attacked him with blackjacks, knocked him unconscious, took his money and threw him into the gutter. Then they drove away in his automobile.

East and West Coasts Will Clash for Gridiron Supremacy Following Tournament of Roses New Year's Day at Pasadena, California

Brown University Squad which crosses the Continent to Play Single Game at Pasadena.

Washington State College Pacific Coast Champions for Eight Years

Dopesters at Sea Over Coming Contest; Interest For Fans As Result of Contrast of Eastern, Western Methods of Playing; Long Trip For Brown

By MORRIS M. RATHBUN

PASADENA, Cal., Dec. 30—When the far east meets the far west in the clash for football supremacy at the Atlantic and Pacific coasts here New Year's day the gridiron classic of the past season is expected.

Brown University squad will represent the east and Washington State University will attempt to uphold its record for no defeats in eight years. Brown will come to the west coast with a past season record marred only by 13 to 7 defeat in the game with Harvard.

Dopesters are somewhat at sea over the coming championship game, as it is expected that Brown will follow the most approved eastern football methods, having been trained in the school which has made famous that style of play at Harvard, Yale and Princeton.

The style of course varies with the play of the westerners and the game is expected to have added zest for experts and fans, because of the opportunity it will afford to contrast the merits of the football methods of the east and west coasts.

Brown will make the longest trip ever made by any squad for a single game. They will carry 26 men more than 3,000 miles from Providence to Pasadena. In order to acclimatize the team to the warm climate in which they will play they arrived here some ten days in advance of the big game and practiced daily.

No Christmas Pie While the rigorous regime will be forced on the squads during the Christmas holidays and turkey, pie and similar highly seasoned foods will be taboo, there will be no lack of joy after the classic clash. The game will be in the afternoon following the far famed Tournament of Roses which has been held in Pasadena every New Year for more than a quarter century. The beautifully spectacular affair winds up with a grand ball in the evening which is the winter society event of the west coast.

Pasadena is credited with more millionaire homes in proportion to its population than any other city in the country and the Tournament of Roses is the pet annual function of the money kings. As both teams will be visitors in the city they will share equally the elaborate guest honors that are being planned.

The bare announcement that after years of effort a game finally has been arranged to test the supremacy of the east and west on the gridiron brought such a deluge of grand stand reservations that the Tournament of Roses association found themselves swamped for seating capacity. Forth with a hurried search was made for ready made seats. They were found in a monster grand stand, one block long and seating 10,000 people, that had been used in Los Angeles during the great convention parades of the 1915 California expositions celebration. This will give a total seating

Weight Practically Even

It is almost impossible to imagine two teams more evenly matched physically so that the great contest should be one of method and ability. The difference in weight is only four-eighths of a pound to the man, which is in favor of Washington State. The line weight average of the teams do not vary an ounce. Back of the line the average for Brown is 162, while Washington is 163. The average weight of the Brown line is 178-4-7; Washington line 178-4-7; Brown backs 162, Washington 163; Brown team average 172-6-11, Washington 172-10-11.

This average is based on the probable line-up for the New Year's game, which is as follows:

Harvard Game Flukey

While Brown was defeated by Harvard this year it is conceded by experts that the team played a better game than its successful rival. Brown gained more than 200 yards in line rushing, while Harvard gained less than 100. Brown earned its first score by scoring fourteen first downs to but four secured by Harvard, while Brown was four times within Harvard's five yard line. Harvard scored its two touchdowns on Brown because Brown backs fumbled.

Washington Real Champs

The Washington State squad are real champions, having a record of being undefeated for eight years. They claim to be the best team in the west and their record seems to bear out this assertion.

Montana University, Idaho University, University of Oregon and Whitman college teams went down before them. In four of the seven games played this season Washington was

not scored against by its opponents and in no game ever was in danger of defeat.

It is expected that with the ice once broken an inter-coast championship game will become an annual event. Pasadena is taking the initiative in the belief that no stronger attraction could be staged with its Tournament of Roses than a gridiron battle in which the entire country is interested. Leaders in amateur athletics in this section prophesy that the New Year's day game will be to football in the country what the Vanderbilt Cup race is in the Auto world.

PASADENA JAN. 1 BE FAIRYLAND OF MILLION BLOSSOMS

Brown, Washington Football Game; Movies to Film Parade; Gaiety

PASADENA, Cal., Dec. 30—With both championship football squads trained to a hair and a million blossoms ready for the floats in the Tournament of Roses, all is in readiness for the twenty-seventh annual New Year's day celebration here.

Preparation has been made for the largest crowd in history, 10,000 additional seats having been placed in Tournament park.

The day's program will open with the midwinter floral decorated with flowers, but not an artificial blossom will be allowed. Every city in Southern California will be represented in the parade.

At 1 o'clock in the afternoon the Universal Film company will take motion pictures of the pageant at tournament park in full view of the public. The floral spectacle will be worked into a Southland romance.

Following the pictures at 2:15 o'clock comes the clash for gridiron supremacy between the west and east coasts. The Washington State University squad will meet the Brown University huskies. The game is the first intercoastal ever staged, and it has aroused country wide interest.

In the evening a complimentary ball will be tendered the visiting football players.

BRISCOE SWAPS POWER PLANT IF ASKED

Will Install An Eight Motor, After Month's Trial Of Four

An interesting departure in automobile salesmanship has been inaugurated by the Briscoe Motor Car Company, a \$5,000,000 corporation which was re-organized at Jackson, Michigan, on December 15, according to A. S. Ralph, secretary of the Orange County Auto Club, who is local agent for the Briscoe line of cars.

The slogan of the Briscoe Company is, "Buy a Briscoe Four and run it a month. Then, if you prefer an Eight we will exchange motors for the difference in price, \$200 plus the cost of installment."

The 1916 Briscoe Fours and Eights sell at \$850 and \$1050, respectively. "The new selling plan is a novel one," said Secretary Ralph today. "I venture to predict that it will meet with much popularity here. The Briscoe company stands ready to help the prospective motor purchaser decide whether the power plant in his 1916 car shall be a four or an eight cylinder motor."

"The Briscoe line is a handsome one. Much favorable comment has been heard among local motor fans who have studied the lines of the cars."

DUCK HUNTING AT JOAQUIN CLUB O. K.

Duck hunting at the San Joaquin Duck Club continues good. Andrew Laird, keeper, reports. Five Angles, who hunted at the club Sunday succeeded in getting limits. Geese are also being shot, according to Laird. One of the Los Angeles men got five white geese and one got three Canadian honker geese.

Yesterday six club members hunted, all getting limits. Several of the men succeeded in getting limits by 7:30 o'clock in the morning. Those in the party were Dr. H. W. Howard, E. A. Klokke, Carl Klokke, W. J. Hole, M. W. Hole and Orrie Monette.

MAKES ESTIMATE ON CAR TAX REVENUE

WASHINGTON, D. C., Dec. 30—The secretary of the treasury, in answer to a resolution adopted by the senate regarding the estimated revenue should taxes be laid upon motor cars and tea, has sent to the senate a report showing a tax of 25 cents per horsepower on motor cars, the tax to be paid by the manufacturers, would bring \$5, 250,000. Senator George was the author of the resolution seeking the information. It is understood that he will make use of it later when the question of raising further revenue for the government is before the senate.

TOMORROW LAST DAY FOR QUAIL HUNTING

Tomorrow is the last day of the open season for quail, and it is also the last day of the open season for rabbits. A number of Santa Ana hunters are figuring on getting out for just one more hunt before the seasons close. After that hunting ceases, gunners in this section will have to content themselves for a month with duck shooting, and after that comes the long period when they can hunt nothing.

MULTIPLE CHAMBERS FOR TIRES INVENTED

A tire of novel construction, intended to solve the puncture problem has been invented and patented by J. Webb Turner, Kirksville, Mo., who, until recently was a salesman for the Columbia Pneumatic Tire Co. Turner's invention is a multiple chamber filling for the casing as a substitute for the inner tube. A number of separate egg-shaped rubber balloons, each filled through a separate valve, are placed in the casing. When one of these chambers or balloons is punctured, the inventor claims, the others expand to fill the space formerly occupied by the punctured balloon and the pressure within the tire is maintained. From sixteen to eighteen balloons are to be used in a tire, according to its size and to a tire, several balloons in a tire without materially reducing the air pressure. Turner is now making plans for marketing the invention.

COVER TEXAS HIGHWAY WITH TAR, IS REPORT

At the recent annual convention of the Texas division of the Meridian Highway Association, which was held at Temple, Tex., D. E. Clop, San Antonio, was re-elected president. Reports were made by delegates from the different counties along the route of the proposed highway as to the progress that is being made in the construction of the different connecting links. For the most part these reports were of a gratifying nature. In his address President Clop stated that the road between Austin and San Antonio, for a distance of 50 miles, is being treated with tar, and a movement to plant shade trees along the entire highway is well advanced. The 150 miles of road between San Antonio and Laredo, on the Rio Grande, is in good condition. President Clop urged that markers be placed along the highway for the guidance of travelers.

LOS ANGELES PRODUCE MARKET

New navel oranges have become a drug on the market and dealers were forced to lower their quotations yesterday to \$2.25 a box in an endeavor to move their stocks.

Vegetable prices continue steady and what alterations are being made are on an upward scale. Green lima beans were raised yesterday to 9 and 10 cents a pound, and the best grade of rhubarb now commands a price of \$1.35 a lug. There is some cheap inferior stock around the market that can be picked up at 85 cents a lug, but there is little demand for the same. Sweet potatoes are about through and it is difficult to obtain first-class potatoes today. By the lug sweet potatoes are selling for 80 cents. The season for the sweet spuds this year was longer than usual, it being out of the ordinary for really good potatoes to last much beyond Thanksgiving.

U. S. EXPORTS OF AUTOS. PARTS TOTALS NEAR 9 MILLIONS

American Makers Continue to Profit With Foreign Trade As War Result

WASHINGTON, D. C., Dec. 30.—Tremendous gains continue to be made in the export trade in motor cars, according to figures which have been announced by the Department of Commerce. During October last, 1,596 commercial cars, valued at \$4,307,190; 2,479 passenger cars, valued at \$2,449,255; and parts, not including engines and tires, to the value of \$1,193,559, were shipped abroad. During October a year ago, the exports amounted to 672 commercial cars, valued at \$2,286,964; 731 passenger cars, valued at \$678,387; and parts, not including engines and tires, to the value of \$404,360.

The shipments during the 9 months ended October, 1915, amounted to 18,865 commercial cars, valued at \$52,076,406; 34,515 passenger cars, valued at \$29,543,227; and parts not including engines and tires to the value of \$12,814,809. During the same period of 1914 these exports were as follows: Commercial cars, 1,309, valued at \$3,353,509; passenger cars, 20,262, valued at \$17,888,351; parts, \$4,555,525.

The United Kingdom's imports of American cars in October last amounted to 2,021 machines, valued at \$2,730,468, as against 415 cars, valued at \$828,982, imported during October a year ago. During the 9 months' period, these imports rose from 5,545 cars, valued at \$5,111,008, in 1914, to 21,455 cars, valued at \$31,379,217, in 1915.

The shipments to France amounted to 258 cars, valued at \$912,139, in October, 1915, as against 108 machines, valued at \$171,049, shipped there in October a year ago, while during the 9 months' period the shipments valued at \$796,685, in 1914, to 5,183 cars, valued at \$13,038,716, in 1915.

There were no shipments to Germany either in October last or in October a year ago. During the 9 months

of this year four cars, valued at \$2,800 were shipped to that country, as against 1,063 cars, valued at \$799,552, shipped during the 9 months' period of 1914.

Italy Gets Forty
Forty cars valued at \$25,887, were shipped to Italy during October last, while in October a year ago the number was two and the value \$1,450, during the 9 months' period, the shipments to Italy amounted to 233 cars, valued at \$151,698, in 1914, and to 210 cars, valued at \$134,901, in 1915.

Under the heading "other Europe," 14 cars, valued at \$1,920,176, were shipped to unnamed countries in October last, as against 346 cars, valued at \$1,461,191, in October a year ago. These shipments amounted to 2,736 cars, valued at \$5,111,008, during the 9 months' of 1914, increasing to 7,502 cars, valued at \$20,003,140, during the same period of this year.

During October last 189 cars, valued at \$202,552, were shipped into Canada, as against 127 cars, valued at \$143,916, shipped there in October, 1914. For the 9 months' period, the official figures show that 3,981 cars, valued at \$5,024,987, were shipped to Canada, in 1914, increasing to 5,238 cars, but with a decreased value of \$4,154,137, in 1915.

Mexico's contribution to the United States for motor cars was \$12,250, for thirteen cars, in October, 1914, while in October last the contribution was only \$5,200 for five cars. During the 9 months' period, the shipments amounted to seventy-three cars, valued at \$87,384, in 1914, and eighty-eight cars, valued at \$84,141, in 1915. The shipments of the West Indies and Bermuda amounted to 276 cars, valued at \$173,355, in October last, and in October a year ago to seventy-two cars, valued at \$51,792. During the 9 months' period, the exports increased from 466 cars, valued at \$394,360, in 1914, to 1,915.

South American Trade Grows
Our export trade with South America is growing steadily. During October last, 383 cars, valued at \$210,840, were shipped there, as against forty-eight cars, valued at \$33,242, exported in October a year ago. During the 9 months' period, the exports increased from 963 cars, valued at \$775,504, in 1914, to 2,464 cars valued at \$1,277,326, in 1915.

British Oceania is also showing a fondness for American cars, the figures showing that 383 cars, valued at \$360,260, were shipped there in October last, as against 190 cars, valued at \$169,582, exported in October a year ago.

ELSINORE TO BE TRAINING CAMP FOR ANGELS. IS REPORT

Powers, Club Owner, In Favor Of Lake Site Rather Than Murietta

According to the story in the Los Angeles Express, written by W. A. Reeve, there is a possibility of the Angels training at Elsinore. The story follows:

Secretary Boots Weber and Trainer Scotty Finlay of the Los Angeles club left early today on a tour of inspection of the sites being considered for the Angels' 1916 spring training camp. The camp will be selected immediately following their return tomorrow night.

The two went first to Elsinore. They will spend tomorrow at Murietta Hot Springs. These are the only places receiving any consideration from Prexy John Powers, according to word coming out of the club's offices.

All indications point to the selection of Elsinore. Trainer Finlay has recommended that spot to Powers in no uncertain terms. Finlay claims the accommodations there are better than at Murietta.

Elsinore is determined to have this club there next spring and because of this is expected to make an unusually attractive offer.

Secretary Weber will find out the terms offered by each prospective camp. With this data on hand and Trainer Finlay's information as to the qualifications of the rival sites, it will not take Powers long to choose the club's training camp.

The Angels will leave Los Angeles for their spring camp March 13, according to announcement made today. They will remain there until the night before the opening of the season, when they will return to Los Angeles ready for the inaugural tilt with the Tigers.

As to who will be in charge of the exhibition, Powers refuses to drop any word. Rumors continue to fly about with vigor, but nothing authentic can be learned.

TO CHASE BANDITS WITH ARMORED CARS

OKLAHOMA CITY, Okla., Dec. 29.—Armored motor cars are being made now for the use of officers in Oklahoma who chase bandits. The increase of bank robberies is responsible for it. Two cars are now being armored in this city and three are already in use. Steel bodies are made for ordinary cars and placed on the chassis. The tires are solid rubber, so that bullets will not puncture them. Inside the windshield is a heavy steel plate that may be raised or lowered. Sheriff Binion will put one of the cars into use as soon as the new body is completed. The others will be distributed around over the state for pursuit of bank and train robbers.

Many of the bank robbers have quit using horses; they are too slow in these days of motor cars. Three of the recent bank robberies were committed by men who used cars and several others had machines hidden in the country. They rode into town on horseback, robbed the bank and then rode the horses back to the cars, in which they fled, leaving their pursuers far behind.

DETROIT MOTORISTS MUST LOCK THEIR CARS

DETROIT, Mich., Dec. 30.—An ordinance has been passed by the city council whereby all passenger cars and motor trucks of a capacity under 1,500 pounds must be provided with locks and be locked when they are left unattended or unattended in the streets. One of the principal reasons for this ordinance is to prevent cars from being driven away by joy riders and thieves. The locks are to be of any kind of type that will not hamper firemen or patrolmen from moving the cars in case of necessity.

CRAWFORD AUTO FIRM ENTERS RACING GAME

HAGERSTOWN, Md., Dec. 30.—Billy Chandler, former mechanic for Ralph Mulford and a member of the Duesenberg team this season, has been engaged by the Crawford Automobile Co., of this city, to build three racing cars which will be campaigned on the speedways in 1916. Chandler will use Duesenberg motors in the special jobs.

65,000 CARS SUPPLY FRENCH FIRING LINE

There are 65,000 motor vehicles, including both passenger cars and motor trucks, supplying the army in France, according to Charles Ryer, motor vehicle expert, who just returned to this country from France.

SUGGESTS SEAL FOR APPROVED HEADLIGHTS

Prof. David I. Gallup, of the Worcester, Mass., Polytechnic Institute, has made a suggestion to the Worcester Automobile Club officials that they communicate with the highway commission to arrange a seal which may be stamped upon headlights that have been found all right under the new headlight law, and in that way prevent the indiscriminate holding-up of motorists night after night to see if their lights are perfect.

QUEENSBURY CHAMP BATTLE TO BE TAKEN TO ORLEANS AT LAST

CHICAGO, Ill., Dec. 30.—The Marquis of Queensbury championship is to return to the scene of its birth, New Orleans, if Jess Willard defends his championship in the Crescent City March according to the terms of the contract with Fulton. It will be the first time since Corbett knocked out Sullivan that New Orleans has seen a heavyweight title bout. The Corbett-Sullivan fight was the first staged under Marquis of Queensbury rules. It marked the passing of the bare knuckle fighter and introduced the knight of the padded mitt.

DECLARE WAR ON FAKE ACCESSORY CLUBS

CHATTANOOGA, Tenn., Dec. 30.—The Chattanooga Automobile Club has entered the fight against fake "co-operative accessory buying" clubs, which have cost a number of the members large amounts, in addition to considerable annoyance. After having been persuaded by plausible accounts of how money could be saved by this scheme, many Chattanooga motorists have been unable to get anything at all in return or were compelled to buy inferior articles at higher prices than those at which local accessory stores sold better accessories. In several cases where the members notified the officials of the club that they had been solicited for such organizations, and an investigation was begun, the solicitor quickly disappeared from view.

\$13,140,000 SPENT ON CARS BY KANSANS

TOPEKA, Kan., Dec. 30.—C. W. Myers, head of the state motor car license department, has just completed a set of figures showing that Kansans owners expend \$13,140,000 a year on the maintenance and upkeep of their cars. His figures are based on the license records showing ownership of 73,000 cars, exclusive of those in the hands of the dealers, within the state.

Myers has taken an average of \$15 a month as the upkeep cost and thus worked out his findings. It shows a cost of \$180 a year a car, divided equally between gasoline and oil, tires and accessories, and labor and repairing. The value of the Kansas owned cars is given at \$75,000,000.

"The motor not only has converted blacksmith shops into garages, but also has driven the old-fashioned livery stables out of business."

BRITISH AUTO TRUCKS ARE DRIVEN BY WOMEN

NEW YORK, Dec. 30.—The great majority of motor trucks now engaged in other than governmental haulage throughout Great Britain are driven by women, according to one of the prominent British motor truck dealers who recently arrived in this country. Most of the experienced men drivers have joined the colors and are driving in trucks either on the continent or in the munitions service in England. For this reason the British merchants desire light vehicles of from 1 to 2 tons capacity which are easy to steer and manipulate. Some form of motor starter is also demanded, to make it unnecessary for the women to crank the engine. The female of the species is proving just as efficient as the male.

INVENTOR EXPLAINS GAS PRICE INCREASE

DETROIT, Mich., Dec. 30.—Dr. Walter F. Rittman, of the United States bureau of mines, spoke tonight at the Board of Commerce, on the subject of gasoline and explained his new patented process which permits the output of gasoline to be tripled, as compared with the former or old methods of contracting and obtaining the fuel from crude oil. Some of the reasons given by Mr. Rittman for the increase in sales of cars in this country, the increase export business in oil which now averages 250,000,000 gallons a year and the fact that the Cushing oil fields in Oklahoma, which a year ago produced 300,000 barrels of oil a day, are gradually drying out.

800 VOTERS, BUT 1000 CARS IN TEX. COUNTY

SONORA, Tex., Dec. 30.—It is claimed that the county of Sutton, of which Sonora is the county seat, has more motor cars per capita to its population than any political subdivision of the United States. The voting strength of the county is approximately 800 and the number of motor cars that are registered in the office of County Clerk Sam Stokes is close to 1,000. This record is all the more remarkable in view of the fact that the county has no railroad within its borders and that Sonora is about 60 miles from the nearest outside point. Further, the county is in a remote part of western Texas where ranching is the chief vocation.

PASS LAW BANNING HUNTING FROM CARS

A bill has been filed at the state house at Boston, Mass., by one of the newly elected members of the legislature to prohibit hunting of any kind from motor cars. The owners of cars have been able to cover a wide territory and secure more game than the law allows, it is said, and they can get it home without being noticed, while other hunters have to carry their game and may be seen by everyone.

ORDER STREET CARS TO GIVE OWN SIGNALS

The Worcester, Mass., Automobile Club has prevailed upon the officers of the Consolidated Street Railway in that city to order the conductors to signal to all approaching vehicles following behind when the street car is about to turn off on a cross street. This has proven quite a boon to the motorists from out of town who are not familiar with the traffic and where the cars turn.
